# Contents

<i>Preface</i>	<i>xix</i>
<i>Acknowledgments</i>	<i>xxvii</i>
<i>About the Authors</i>	<i>xxix</i>
<b>Introduction</b>	<b>xxxix</b>
1.1 Do These Now!	xxxix
1.1.1 Use a Trouble-Ticket System	xxxix
1.1.2 Manage Quick Requests Right	xxxix
1.1.3 Start Every New Host in a Known State	xxxix
1.2 Conclusion	xxxix
<b>PART I The Principles</b>	
<b>1 Desktops</b>	
1.1 The Basics	7
1.1.1 Loading the System Software and Applications Initially	8
1.1.2 Updating the System Software and Applications	14
1.1.3 Network Configuration	17
1.1.4 Dynamic DNS with DHCP	21
1.2 The Icing	24
1.2.1 High Confidence in Completion	24
1.2.2 Involve Customers in the Standardization Process	25
1.2.3 A Variety of Standard Configurations	25
1.3 Conclusion	26
Exercises	27

2	Servers	29
2.1	The Basics	29
2.1.1	Buy Server Hardware for Servers	30
2.1.2	Vendors Known for Reliable Products	31
2.1.3	Does Server Hardware Really Cost More?	32
2.1.4	Maintenance Contracts and Spare Parts	33
2.1.5	Data Backups	35
2.1.6	Servers Live in the Data Center	36
2.1.7	Same, Different, or a Stripped-Down OS on Clients	36
2.1.8	Remote Administration Access	37
2.1.9	Mirrored Root Disks	39
2.2	The Icing	41
2.2.1	Server Appliances	41
2.2.2	Redundant Power Supplies	41
2.2.3	Fill and $n + 1$ Redundancy	43
2.2.4	Hot-swap Components	43
2.2.5	Separate Networks for Administrative Functions	44
2.3	Opposing View: Many Inexpensive Workstations	45
2.4	Conclusion	46
	Exercises	46
3	Services	49
3.1	The Basics	50
3.1.1	Customer Requirements	52
3.1.2	Operational Requirements	53
3.1.3	Open Architecture	56
3.1.4	Simplicity	60
3.1.5	Vendor Relations	61
3.1.6	Machine Independence	61
3.1.7	Environment	62
3.1.8	Restricted Access	63
3.1.9	Reliability	64
3.1.10	Single or Multiple Servers	67
3.1.11	Centralization and Standards	67
3.1.12	Performance	68
3.1.13	Monitoring	71
3.1.14	Service Rollout	71
3.2	The Icing	72
3.2.1	Dedicated Machines	72
3.2.2	Fill Redundancy	73
3.3	Conclusion	75
	Exercises	76

<b>4</b>	<b>Debugging</b>	<b>79</b>
4.1	The Basics	80
4.1.1	Learn the Customer's Problem	80
4.1.2	Find the Problem's Cause and Fix It	81
4.1.3	Have the Right Tools	83
4.2	The Icing	86
4.2.1	Better Tools	86
4.2.2	Formal Training on the Tools	87
4.2.3	End-to-End Understanding of the System	87
4.3	Conclusion	89
	Exercises	89
<b>5</b>	<b>Fixing Things Once</b>	<b>91</b>
5.1	The Basics	92
5.1.1	Fix Things Once, Rather Than Over and Over	92
5.1.2	Avoid the Temporary Fix Trap	94
5.1.3	Learning from Carpenters	96
5.2	The Icing	98
5.3	Conclusion	99
	Exercises	100
<b>6</b>	<b>Namespaces</b>	<b>101</b>
6.1	The Basics	102
6.1.1	Namespaces Need Policies	102
6.1.2	Namespaces Need Change Procedures	112
6.1.3	Namespace Management Should Be Centralized	113
6.2	The Icing	114
6.2.1	One Huge Database That Drives Everything	114
6.2.2	Further Automation	114
6.2.3	Customers Do Many of the Updates	115
6.2.4	"Next-Level" Namespace Ubiquity	115
6.3	Conclusion	116
	Exercises	116
<b>7</b>	<b>Security Policy</b>	<b>117</b>
7.1	The Basics	119
7.1.1	Build Security Using a Solid Infrastructure	120
7.1.2	Ask the Right Questions	121
7.1.3	Document the Company's Security Policies	124
7.1.4	Basics for the Technical Staff	130
7.1.5	Management and Organizational Issues	142

7.2	The Icing	155
7.2.1	Make Security Pervasive	156
7.2.2	Stay Up-to-Date: Contacts and Technologies	157
7.2.3	Produce Metrics	157
7.3	Organization Profiles	158
7.3.1	Small Company	158
7.3.2	Medium-Size Company	159
7.3.3	Large Company	159
7.3.4	E-commerce Site	160
7.3.5	University	160
7.4	Conclusion	161
	Exercises	162
<b>8</b>	<b>Disaster Recovery and Data Integrity</b>	<b>163</b>
8.1	The Basics	164
8.1.1	What Is a Disaster?	164
8.1.2	Risk Analysis	164
8.1.3	Legal Obligations	166
8.1.4	Damage Limitation	166
8.1.5	Preparation	167
8.1.6	Data Integrity	169
8.2	The Icing	170
8.2.1	Redundant Site	170
8.2.2	Security Disasters	171
8.2.3	Media Relations	171
8.3	Conclusion	172
	Exercises	172
<b>9</b>	<b>Ethics</b>	<b>175</b>
9.1	The Basics	175
9.1.1	Informed Consent	176
9.1.2	Professional Code of Conduct	176
9.1.3	Network/Computer User Code of Conduct	178
9.1.4	Privileged Access Code of Conduct	179
9.1.5	Copyright Adherence	181
9.1.6	Working with Law Enforcement	182
9.2	The Icing	187
9.2.1	Setting Expectations on Privacy and Monitoring	187
9.2.2	Being Told to Do Something Illegal/Unethical	188
9.3	Conclusion	189
	Exercises	190

<b>PART II The Processes</b>	<b>193</b>
<b>10 Change Management and Revision Control</b>	<b>195</b>
10.1 The Basics	196
10.1.1 Technical Issues	196
10.1.2 Communications Structure	200
10.1.3 Scheduling	201
10.1.4 Process and Documentation	204
10.1.5 Quiet Times	205
10.2 The Icing	205
10.2.1 Automated Front-Ends	205
10.2.2 Change Management Meetings	207
10.2.3 Streamline the Process	210
10.3 Conclusion	210
Exercises	210
<b>11 Server Upgrades</b>	<b>213</b>
11.1 The Basics	214
11.1.1 The Steps in Detail	214
11.2 The Icing	224
11.2.1 Add and Remove Services at the Same Time	224
11.2.2 Fresh Instalists	224
11.2.3 Reusing the Tests	225
11.2.4 System Changelog	225
11.2.5 A Dress Rehearsal	225
11.2.6 Install Old and New Versions on the Same Machine	226
11.2.7 Minimal Changes From the Base	226
11.3 Conclusion	228
Exercises	229
<b>12 Maintenance Windows</b>	<b>231</b>
12.1 The Basics	233
12.1.1 Scheduling	234
12.1.2 Planning	235
12.1.3 Flight Director	235
12.1.4 Change Proposals	236
12.1.5 The Master Plan	238
12.1.6 Disabling Access	239
12.1.7 Mechanics and Coordination	240
12.1.8 Deadlines for Change Completion	244
12.1.9 Comprehensive System Testing	245

12.1.10	Postmaintenance Communication	246
12.1.11	Re-enable Remote Access	247
12.1.12	Visible Presence the Next Morning	247
12.1.13	Postmortem	247
12.2	The Icing	248
12.2.1	Mentoring a New Flight Director	248
12.2.2	Trending of Historical Data	248
12.2.3	Providing Limited Availability	249
12.3	High-Availability Sites	250
12.3.1	The Similarities	250
12.3.2	The Differences	251
12.4	Conclusion	252
	Exercises	253
<b>13</b>	<b>Service Conversions</b>	<b>255</b>
13.1	The Basics	256
13.1.1	Small Groups First, Then Expand	256
13.1.2	Communication	257
13.1.3	Minimize Intrusiveness	257
13.1.4	Layers Versus Pillars	259
13.1.5	Avoid Flash-Cuts	260
13.1.6	Successful Flash-Cuts	262
13.1.7	Back-Out Plan	263
13.2	The Icing	263
13.2.1	Instant Roll-Back	264
13.2.2	Avoid Explicit Conversions	265
13.2.3	Vendor Support	266
13.3	Conclusion	266
	Exercises	266
<b>14</b>	<b>Centralization and Decentralization</b>	<b>267</b>
14.1	The Basics	268
14.1.1	Guiding Principles	268
14.1.2	Candidates for Centralization	271
14.1.3	Candidates for Decentralization	274
14.2	The Icing	276
14.2.1	Consolidate Purchasing	276
14.2.2	Outsourcing	278
14.3	Conclusion	281
	Exercises	281

<b>PART III The Practices</b>	<b>283</b>
<b>15 Helpdesks</b>	<b>285</b>
15.1 The Basics	286
15.1.1 Have a Helpdesk	286
15.1.2 A Friendly Face	288
15.1.3 Staff Sizing	288
15.1.4 Defined Scope of Coverage	289
15.1.5 Defined Processes for Staff	292
15.1.6 An Escalation Process	292
15.1.7 Helpdesk Software	293
15.2 The Icing	295
15.2.1 Statistical Improvements	295
15.2.2 Out of Hours and 24 x 7 Coverage	296
15.2.3 Better Advertising for the Helpdesk	297
15.2.4 Different "Desks" for Service Provision Versus Problem Resolution	297
15.3 Conclusion	298
Exercises	299
<b>16 Customer Care</b>	<b>301</b>
16.1 The Basics	303
16.1.1 Ticket Tracking Software	304
16.1.2 Phase A: The Greeting	304
16.1.3 Phase B: Problem Identification ("What's Wrong?")	305
16.1.4 Phase C: Planning and Execution ("Fix It")	310
16.1.5 Phase D: Verification ("Verify It")	313
16.1.6 Perils of Skipping a Step	315
16.1.7 Team of One	317
16.2 The Icing	317
16.2.1 Training Based on the Model	317
16.2.2 The Single Point of Contact	317
16.2.3 Increasing Customer Familiarity	318
16.2.4 Special Announcements for Major Outages	318
16.2.5 Trend Analysis	319
16.2.6 Customers That Know the Process	320
16.2.7 Architectural Decisions That Match the Process	321
16.3 Conclusion	321
Exercises	323

<b>17 Data Centers</b>	<b>325</b>
17.1 The Basics	326
17.1.1 Picking a Location	327
17.1.2 Access	328
17.1.3 Security	329
17.1.4 Power and Air	331
17.1.5 Fire Suppression	340
17.1.6 Racks	341
17.1.7 Wiring	348
17.1.8 Labeling	354
17.1.9 Communication	356
17.1.10 Console Servers	356
17.1.11 Workbench	359
17.1.12 Tools and Supplies	359
17.1.13 Parking Spaces	361
17.2 The Icing	362
17.2.1 Greater Redundancy	362
17.2.2 More Space	364
17.3 Ideal Data Centers	364
17.3.1 Tom's Dream Data Center	365
17.3.2 Christine's Dream Data Center	368
17.4 Conclusion	370
Exercises	371
<b>18 Networks</b>	<b>373</b>
18.1 The Basics	374
18.1.1 The OSI Model	374
18.1.2 Clean Architecture	375
18.1.3 Network Topologies	376
18.1.4 Intermediate Distribution Frame	383
18.1.5 Main Distribution Frame	389
18.1.6 Demarcation Points	391
18.1.7 Documentation	391
18.1.8 Simple Host Routing	393
18.1.9 Use Network Devices	395
18.1.10 Overlay Networks	396
18.1.11 Number of Vendors	397
18.1.12 Standards-Based Protocols	398
18.1.13 Monitoring	398
18.1.14 Single Administrative Domain	399

18.2	The Icing	400
18.2.1	Leading-Edge Versus Reliability	401
18.2.2	Multiple Administrative Domains	401
18.3	Conclusion	402
	Exercises	403
<b>19</b>	<b>Email Service</b>	<b>405</b>
19.1	The Basics	405
19.1.1	Privacy Policy	406
19.1.2	Namespaces	406
19.1.3	Reliability	408
19.1.4	'Simplicity	409
19.1.5	Generality	411
19.1.6	Automation	412
19.1.7	Basic Monitoring	413
19.1.8	Redundancy	413
19.1.9	Scaling	414
19.1.10	Security Issues	416
19.1.11	Communication	417
19.2	The Icing	418
19.2.1	Encryption	418
19.2.2	Backup Policy	419
19.2.3	Advanced Monitoring	420
19.2.4	High-Volume List Processing	420
19.3	Conclusion	422
	Exercises	422
<b>20</b>	<b>Print Service</b>	<b>425</b>
20.1	The Basics	426
20.1.1	Select the Level of Centralization	426
20.1.2	Print Architecture Policy	428
20.1.3	Designing the System	431
20.1.4	Documentation	432
20.1.5	Monitoring	433
20.1.6	Environmental Issues	434
20.2	The Icing	435
20.2.1	Automatic Fail-Over and Load Balancing	435
20.2.2	Dedicated Clerical Support	436
20.2.3	Shredding	436
20.2.4	Dealing with Printer Abuse	437
20.3	Conclusion	438
	Exercises	438

21	Backup and Restore	<b>441</b>
21.1	The Basics	442
21.1.1	Three Reasons for Restores	443
21.1.2	The Backup Schedule	449
21.1.3	Time and Capacity Planning	455
21.1.4	Consumables Planning	456
21.1.5	The Restore Process	458
21.1.6	Backup Automation	459
21.1.7	Centralization	461
21.1.8	Tape Inventory	462
21.2	The Icing	463
21.2.1	Firedrills	463
21.2.2	Backup Media and Off-Site Storage	464
21.2.3	High DB Availability	467
21.2.4	Technology Changes	468
21.3	Conclusion	469
	Exercises	471
22	Remote Access Service	<b>473</b>
22.1	The Basics	474
22.1.1	Remote Access Requirements	474
22.1.2	Define a Remote Access Policy	476
22.1.3	Define Service Levels	476
22.1.4	Centralization	478
22.1.5	Outsourcing	478
22.1.6	Authentication	481
22.1.7	Perimeter Security	481
22.2	The Icing	482
22.2.1	Home Office	482
22.2.2	Cost Analysis and Reduction	483
22.2.3	New Technologies	484
22.3	Conclusion	484
	Exercises	485
23	Software Depot Service	<b>487</b>
23.1	The Basics	489
23.1.1	Understand the Justification	489
23.1.2	Understand the Technical Expectations	490
23.1.3	Set the Policy	491
23.1.4	Selecting Depot Software	492
23.1.5	Create the Process Manual	492

23.1.6	A UNIX Example	493
23.1.7	A Windows Example	498
23.2	The Icing	501
23.2.1	Different Configurations for Different Hosts	501
23.2.2	Local Replication	501
23.2.3	Including Commercial Software in the Depot	502
23.2.4	Handling Second-Class Citizens	503
23.3	Conclusion	504
	Exercises	504
<b>24</b>	<b>Service Monitoring</b>	<b>507</b>
24.1	The Basics	508
24.1.1	Historical Data	509
24.1.2	Real-Time Monitoring	510
24.2	The Icing	515
24.2.1	Accessibility	515
24.2.2	Pervasive Monitoring	516
24.2.3	Device Discovery	516
24.2.4	End-to-End Tests	517
24.2.5	Application Response Time Monitoring	518
24.2.6	Scaling	518
24.3	Conclusion	520
	Exercises	521
<b>PART IV</b>	<b>Management</b>	<b>523</b>
<b>25</b>	<b>Organizational Structures</b>	<b>525</b>
25.1	The Basics	526
25.1.1	Sizing	526
25.1.2	Cost Centers	529
25.1.3	Management Chain	531
25.1.4	Appropriate Skills	533
25.1.5	Infrastructure Teams	534
25.1.6	Customer Support	536
25.1.7	Helpdesk	538
25.1.8	Outsourcing	538
25.2	The Icing	540
25.2.1	Consultants and Contractors	540
25.3	Sample Organizational Structures	541
25.3.1	Small Company	541
25.3.2	Medium Company	541

25.3.3 Large Company	542
25.3.4 E-commerce Site	542
25.3.5 Universities and Non-Profit Organizations	543
25.4 Conclusion	544
Exercises	545
<b>26 Perception and Visibility</b>	<b>547</b>
26.1 The Basics	548
26.1.1 A Good First Impression	548
26.1.2 Attitude, Perception, and Customers	551
26.1.3 Align Your Priorities with Customer Expectations	553
26.1.4 Be the System Advocate	554
26.2 The Icing	559
26.2.1 The System Status Web Page	560
26.2.2 Management Meetings	561
26.2.3 Be Visible	561
26.2.4 Town Meetings	561
26.2.5 Newsletters	563
26.2.6 Mail to All Customers	564
26.2.7 Lunch	565
26.3 Conclusion	566
Exercises	567
<b>27 Being Happy</b>	<b>569</b>
27.1 The Basics	570
27.1.1 Organizing for Excellent Follow-Through	570
27.1.2 Time Management	572
27.1.3 Communication Skills	581
27.1.4 Constant Professional Development	586
27.1.5 Staying Technical	587
27.2 The Icing	588
27.2.1 Learn To Negotiate	588
27.2.2 Loving Your Job	594
27.2.3 Managing Your Manager	600
27.3 Further Reading	604
27.4 Conclusion	604
Exercises	605
<b>28 A Guide for Technical Managers</b>	<b>607</b>
28.1 The Basics	607
28.1.1 Responsibilities	608

28.1.2	Working with Nontechnical Managers	620
28.1.3	Working with Your Employees	623
28.1.4	Decisions	628
28.2	The Icing	633
28.2.1	Make Your Team Even Stronger	633
28.2.2	Seil Your Department to Senior Management	634
28.2.3	Work on Your Own Career Growth	634
28.2.4	Do Something You Enjoy	634
28.3	Conclusion	635
	Exercises	635
<b>29</b>	<b>A Guide for Nontechnical Managers</b>	<b>637</b>
29.1	The Basics	637
29.1.1	Morale	638
29.1.2	Communication	640
29.1.3	Staff Meetings	641
29.1.4	Look for One-Year Plans	642
29.1.5	Technical Staff and the Budget Process	643
29.1.6	Professional Development	645
29.2	The Icing	646
29.2.1	Have a Five-Year Vision	647
29.2.2	Meetings with Single Point of Contact	648
29.2.3	Understand the Technical Staff's Work	650
29.3	Conclusion	651
	Exercises	651
<b>30</b>	<b>Hiring System Administrators</b>	<b>653</b>
30.1	The Basics	653
30.1.1	Job Description	654
30.1.2	Skill Level	656
30.1.3	Recruiting	656
30.1.4	Timing Is Everything	658
30.1.5	Team Considerations	660
30.1.6	Select the Interview Team	663
30.1.7	Interview Process	665
30.1.8	Technical Interviewing	667
30.1.9	Nontechnical Interviewing	668
30.1.10	Seil the Position	670
30.1.11	Employee Retention	670
30.2	The Icing	672
30.2.1	Get Noticed	672

30.3 Conclusion	672
Exercises	673
<b>31 Firing System Administrators</b>	<b>675</b>
31.1 The Basics	676
31.1.1 Follow Your Corporate HR Policy	676
31.1.2 Remove Physical Access	676
31.1.3 Remove Remote Access	677
31.1.4 Remove Service Access	677
31.1.5 Fewer Access Databases	680
31.2 The Icing	680
31.2.1 A Single Authentication Database	680
31.2.2 Monitoring System File Changes	681
31.3 Conclusion	682
Exercises	683
<b>Epilogue</b>	<b>685</b>
<b>Appendix A: The Many Roles of a System Administrator</b>	<b>687</b>
<b>Appendix B: What to Do When ...</b>	<b>713</b>
<b>Appendix C: Acronyms</b>	<b>729</b>
<b>Bibliography</b>	<b>733</b>
<b>Index</b>	<b>745</b>
