	<i>Preface</i>	iii
	<i>Foreword</i>	v
	<i>About the Author</i>	vii
CHAPTER	DERIVATIVE MARKETS AND INSTRUMENTS	1
	7 INTRODUCTION	1
	2 TYPES OF DERIVATIVES	2
	2.1 Forward Commitments	2
	2.2 Contingent Claims	6
	3 DERIVATIVE MARKETS: PAST AND PRESENT	8
	4 HOW BIG IS THE DERIVATIVES MARKET	10
	5 THE PURPOSES OF DERIVATIVE MARKETS	13
	6 CRITICISMS OF DERIVATIVE MARKETS	15
	7 ELEMENTARY PRINCIPLES OF DERIVATIVE PRICING	16
	KEY POINTS	20
	PROBLEMS	21
	SOLUTIONS	23
CHAPTER <i>Jm</i>	FORWARD MARKETS AND CONTRACTS	25
	7 INTRODUCTION	26
	7.7 Delivery and Settlement of a Forward Contract	26
	1.2 Default Risk and Forward Contracts	27
	1.3 Termination of a Forward Contract	27
	2 THE STRUCTURE OF GLOBAL FORWARD MARKETS	28
	3 TYPES OF FORWARD CONTRACTS -	30
	3.1 Equity Forwards	30
	3.2 Bond and Interest Rate Forward Contracts	33
	3.3 Currency Forward Contracts	36
	3.4 Other Types of Forward Contracts	37
	4 PRICING AND VALUATION OF FORWARD CONTRACTS	37
	4.1 Generic Pricing and Valuation of a Forward Contract	38
	4.2 Pricing and Valuation of Equity Forward Contracts	45
	4.3 Pricing and Valuation of Fixed-Income and Interest Rate Forward Contracts	50
	4.4 Pricing and Valuation of Currency Forward Contracts	56
	5 CREDIT RISK AND FORWARD CONTRACTS	61
	6 THE ROLE OF FORWARD MARKETS	63
	KEY POINTS	64
	PROBLEMS	67
	SOLUTIONS	72
CHAPTER * <i>J</i>	FUTURES MARKETS AND CONTRACTS	81
	1 INTRODUCTION	82

7.7	A Brief History of Futures Markets	83
1.2	Public Standardized Transactions	83
1.3	Homogenization and Liquidity	84
1.4	The Clearinghouse, Daily Settlement, and Performance Guarantee	85
1.5	Regulation	85
2	FUTURES TRADING	85
3	THE CLEARINGHOUSE, MARGINS, AND PRICE LIMITS	86
4	DELIVERY AND CASH SETTLEMENT	92
5	FUTURES EXCHANGES	94
6	TYPES OF FUTURES CONTRACTS	95
6.7	Short-Term Interest Rate Futures Contracts	97—
6.2	Intermediate- and Long-Term Interest Rate Futures Contracts	99
6.3	Stock Index Futures Contracts	101
6.4	Currency Futures Contracts	102
7	PRICING AND VALUATION OF FUTURES CONTRACTS	103
7.7	Generic Pricing and Valuation of a Futures Contract	103
7.2	Pricing Interest Rate Futures	116
7.3	Pricing Stock Index Futures	129
7.4	Pricing Currency Futures	135
7.5	Futures Pricing: A Recap	137
8	THE ROLE OF FUTURES MARKETS AND EXCHANGES	138
	KEY POINTS	139
	PROBLEMS	143
	SOLUTIONS	147
CHAPTER <i>nr</i>	OPTION MARKETS AND CONTRACTS	159
7	INTRODUCTION	160
2	BASIC DEFINITIONS AND ILLUSTRATIONS OF OPTIONS CONTRACTS	161
2.7	Basic Characteristics of Options	161
2.2	Some Examples of Options	162
2.3	The Concept of Moneyness of an Option	164
3	THE STRUCTURE OF GLOBAL OPTIONS MARKETS	164
3.1	Over-the-Counter Options Markets	164
3.2	Exchange-Listed Options Markets	166
4	TYPES OF OPTIONS	168
4.7	Financial Options	169
4.2	Options on Futures	173
4.3	Commodity Options	174
4.4	Other Types of Options	174
5	PRINCIPLES OF OPTION PRICING	175
5.1	Payoff Values	176
5.2	Boundary Conditions	179
5.3	The Effect of a Difference in Exercise Price	184
5.4	The Effect of a Difference in Time to Expiration	186
5.5	Put-Call Parity	187
5.6	American Options, Lower Bounds, and Early Exercise	192
5.7	The Effect of Cash Flows on the Underlying Asset	193
5.8	The Effect of Interest Rates and Volatility	194
5.9	Option Price Sensitivities	194
6	DISCRETE-TIME OPTION PRICING: THE BINOMIAL MODEL	195
6.7	The One-Period Binomial Model	195
6.2	The Two-Period Binomial Model	200
6.3	Binomial Put Option Pricing	204
6.4	Binomial Interest Rate Option Pricing	205

6.5	American Options	211
6.6	Extending the Binomial Model	211
7	CONTINUOUS-TIME OPTION PRICING: THE BLACK-SCHOLES-MERTON MODEL	212
7.1	Assumptions of the Model	212
7.2	The Black-Scholes-Merton Formula	213
7.3	Inputs to the Black-Scholes-Merton Model	216
7.4	The Effect of Cash Flows on the Underlying	224
7.5	The Critical Role of Volatility	225
8	PRICING OPTIONS ON FORWARD AND FUTURES CONTRACTS AND AN APPLICATION TO INTEREST RATE OPTION PRICING	228
8.1	Put-Call Parity for Options on Forwards	229
8.2	Early Exercise of American Options on Forward and Futures Contracts	233
8.3	The Black Model	233
8.4	Application of the Black Model to Interest Rate Options	235
9	THE ROLE OF OPTIONS MARKETS	238
	KEY POINTS	239
	APPENDIX 4A	243
	PROBLEMS	244
	SOLUTIONS	250
CHAPTER D	SWAP MARKETS AND CONTRACTS	269
7	INTRODUCTION	270
1.1	Characteristics of Swap Contracts	270
7.2	Termination of a Swap	271
2	THE STRUCTURE OF GLOBAL SWAP MARKETS	272
3	TYPES OF SWAPS	274
3.1	Currency Swaps	274
3.2	Interest Rate Swaps	278
3.3	Equity Swaps	281
3.4	Commodity and Other Types of Swaps	285
4	PRICING AND VALUATION OF SWAPS	285
4.1	Equivalence of Swaps and Other Instruments	286
4.2	Pricing and Valuation	287
4.3	Some Concluding Comments on Swap Valuation	304
5	VARIATIONS OF SWAPS	304
6	SWAPTIONS	305
6.1	Basic Characteristics of Swaptions	306
6.2	Uses of Swaptions	306
6.3	Swaption Payoffs	307
6.4	Pricing and Valuation of Swaptions	309
6.5	Forward Swaps	311
7	CREDIT RISK AND SWAPS	311
8	THE ROLE OF SWAP MARKETS	314
	KEY POINTS	315
	PROBLEMS	319
	SOLUTIONS	326
CHAPTER O	RISK MANAGEMENT APPLICATIONS OF FORWARD AND FUTURES STRATEGIES	341
7	INTRODUCTION	342

	2	STRATEGIES AND APPLICATIONS FOR MANAGING INTEREST RATE RISK	343
	2.7	Managing the Interest Rate Risk of a Loan Using an FRA	344
	2.2	Strategies and Applications for Managing Bond Portfolio Risk	347
	3	STRATEGIES AND APPLICATIONS FOR MANAGING EQUITY MARKET RISK	356
	3.1	Measuring and Managing the Risk of Equities	356
	3.2	Managing the Risk of an Equity Portfolio	358
	3.3	Creating Equity out of Cash	361
	3.4	Creating Cash out of Equity	366
	4	ASSET ALLOCATION WITH FUTURES	369
	4.7	Adjusting the Allocation among Asset Classes	370
	4.2	Pre-Investing in an Asset Class	376
	5	STRATEGIES AND APPLICATIONS FOR MANAGING FOREIGN CURRENCY RISK	378
	5.7	Managing the Risk of a Foreign Currency Receipt	379
	5.2	Managing the Risk of a Foreign Currency Payment	380
	5.3	Managing the Risk of a Foreign-Market Asset Portfolio	382
	6	FUTURES OR FORWARDS	385
	7	FINAL COMMENTS	387
		KEY POINTS	389
		PROBLEMS	392
		SOLUTIONS	398
CHAPTER	7	RISK MANAGEMENT APPLICATIONS OF OPTION STRATEGIES	411
	7	INTRODUCTION	412
	2	OPTION STRATEGIES FOR EQUITY PORTFOLIOS	413
	2.7	Standard Long and Short Positions	415
	2.2	Risk Management Strategies with Options and the Underlying	422
	2.3	Money Spreads	430
	2.4	Combinations of Calls and Puts	440
	3	INTEREST RATE OPTION STRATEGIES	449
	3.1	Using Interest Rate Calls with Borrowing	450
	3.2	Using Interest Rate Puts with Lending	455
	3.3	Using an Interest Rate Cap with a Floating-Rate Loan	460
	3.4	Using an Interest Rate Floor with a Floating-Rate Loan	464
	3.5	Using an Interest Rate Collar with a Floating-Rate Loan	466
	4	OPTION PORTFOLIO RISK MANAGEMENT STRATEGIES	470
	4.7	Delta Hedging an Option over Time	472
	4.2	Gamma and the Risk of Delta	479
	4.3	Vega and Volatility Risk	480
	5	FINAL COMMENTS	480
		KEY POINTS	481
		PROBLEMS	485
		SOLUTIONS	492
CHAPTER	8	RISK MANAGEMENT APPLICATIONS OF SWAP STRATEGIES	505
	7	INTRODUCTION	506
	2	STRATEGIES AND APPLICATIONS FOR MANAGING INTEREST RATE RISK	507
	2.7	Using Interest Rate Swaps to Convert a Floating-Rate Loan to a Fixed-Rate Loan (and Vice Versa)	508
	2.2	Using Swaps to Adjust the Duration of a Fixed-Income Portfolio	512
	2.3	Using Swaps to Create and Manage the Risk of Structured Notes	514
	3	STRATEGIES AND APPLICATIONS FOR MANAGING EXCHANGE RATE RISK	519

3.1	Converting a Loan in One Currency into a Loan in Another Currency	519
3.2	Converting Foreign Cash Receipts into Domestic Currency	523
3.3	Using Currency Swaps to Create and Manage the Risk of a Dual-Currency Bond	525
4	STRATEGIES AND APPLICATIONS FOR MANAGING EQUITY MARKET RISK	527
4.1	Diversifying a Concentrated Portfolio	528
4.2	Achieving International Diversification	530
4.3	Changing an Asset Allocation between Stocks and Bonds	532
4.4	Reducing Insider Exposure	535
5	STRATEGIES AND APPLICATIONS USING SWAPTIONS	537
5.1	Using an Interest Rate Swaption in Anticipation of a Future Borrowing	538
5.2	Using an Interest Rate Swaption to Terminate a Swap	541
5.3	Synthetically Removing (Adding) a Call Feature in Callable (Noncallable) Debt	544
5.4	A Note on Forward Swaps	550
6	CONCLUSIONS	550
	KEY POINTS	551
	PROBLEMS	554
	SOLUTIONS	559
CHAPTER 7	RISK MANAGEMENT	567
7	INTRODUCTION	568
2	THE CONCEPT OF RISK MANAGEMENT	569
2.1	Sources of Risk	570
2.2	Why Manage Risk?	570
2.3	How Risk Is Managed	572
3	MANAGING MARKET RISK	574
3.1	Traditional Notions of Market Risk	574
3.2	Value at Risk	576
3.3	Improvements and Supplements to VAR	588
4	MANAGING CREDIT RISK	588
4.1	Traditional Notions of Credit Risk	588
4.2	Techniques for Managing Credit Risk	595
4.3	Insurance and Credit Derivatives	599
5	OTHER RISKS FACED BY AN ORGANIZATION	604
5.1	Liquidity Risk	604
5.2	Operations Risk	605
5.3	Model Risk	605
5.4	Settlement (Herstatt) Risk	606
5.5	Regulatory Risk	606
5.6	Legal Risk	607
5.7	Tax Risk	607
5.8	Accounting Risk	607
6	BEST PRACTICES IN RISK MANAGEMENT	608
6.1	The G-30 Report: Best Practices for Derivatives Dealers and General End Users	609
6.2	The Risk Standards Working Group Report: Best Practices for Investment Management Organizations	609
6.3	Risk Governance	610
6.4	Risk Budgeting and Performance Evaluation	611
7	CONCLUDING COMMENTS	612
	KEY POINTS	612
