Contents

Preface	JfUll
Foreword by Professor Guus Berkhoul	
Acknowledgements	xxixl
Plan of the book	xxvN
Part One Innovation management	
Innovation management: an introduction	
The Importance of innovation	4
The study of Innovation	6
Recent and contemporary studies	9
The need to view innovation in an organisational context	11
Individuals in the innovation process	11
Problems of definition and vocabulary	11
Entrepreneurship	12
Innovation and Invention	14
Successful and unsuccessful Innovations	14
Drivers of innovation	17
Technology and science	17
Popular views of Innovation	17
Models of innovation	20
Serendipity	21
Linear models	21
Simultaneous coupling model	23
Interactive model	23
Innovation as a management process	24
A framework for the management of innovation	24
Open Innovation and The need to share and <i>exchange</i> knowledge (network models)	27
Innovation and new product development	29
Case study: The success of the iPod raises the licensing question for Apple . . . again	29
<i>Chapter summary</i>	36
<i>Discussion questions</i>	37
<i>Key words and phrases</i>	37
<i>Web sites worth visiting</i>	37
<i>References</i>	38
<i>Further reading</i>	41

Innovation and operations management tofl

Rktivim iVobte. University of Portsmouth

Operational management	11S
The nature of design and innovation in the context of operations	H1
Design requirements	11E
Design and volumes	114
Design-based products	t17
Design simplification	117
Process design and innovation	11B
Innovation in the management of the operations practice	119
TriggBra for Innovation	119
Gap analysis	119
Quality circles and process improvement practice	120
Total quality management (TQM)	121
Quality function Deployment (QFD)	1^
The ISO 9000 approach	123
TII B EFOM exuifilBnca model	133
Design of the organisation and its suppliers - supply chain management	124
Business process re-engineering (BPR)	12S
Operations and Learning	129
Innovation as an operations process itself	134
Case study. Novels, new products and Harry Potter	iaS
<i>summary</i>	14^
<i>Discussion questions</i>	141

Managing intellectual property vm

Intellectual property	14B
Trade secrets	Ififi

An Introduction to patents	145
Novelty	150
Inventive step	150
Industrial applications	150
Exclusions from patents	150
The patenting of life	151
Human genetic patenting	151
<i>The CDRTTGURA WOLF</i> of a patent	152
Patent harmonisation: first to file and first to invent	153
Some famous patent cases	153
Patents in practice	154
Exploitation of a patent and patent extensions	154
Patent extensions	157
The life of a patent in the EU and the USA	158
Do patents hinder or encourage innovation?	163
Trademarks	160
Should satisfy the requirements of section 1(1)	160
Distinctive	161
Non-acceptable	161
Not confusing	161
Brand names	161
Using brands to protect intellectual property	163
Exploiting new opportunities	164
Brands, trademarks and the Internet	164
Duration of registration: infringement and passing off	185
Registered designs	157
Copyright	167
Remedy against infringement	170
Damages	171
Injunction	171
Accounts	171
Counterfeit goods and IP	171
Case study: Pricing, competition and profits in the pharmaceutical industry	173
<i>Chapter summary</i>	176
<i>Discussion questions</i>	176
<i>Key words and phrases</i>	176
<i>Websites worth visiting</i>	176
<i>References</i>	177
<i>Further</i>	
Part Two Managing technology and knowledge	178
Managing organisational knowledge	178
The battle of Trafalgar	178
The acquisition of firm-specific knowledge	183
The resource-based perspective	163
Dynamic capabilities: theory of the firm	185

Developing firm-specific competencies	186
Competencies and profits	187
Technology development and effort required	188
The Knowledge base of an organisation	189
The whole can be more than the sum of the parts	190
Organisational heritage	191
When the performance of the organisation is greater than the ability of individuals	161
Japanese* organisations and the role of organisational knowledge	162
Characterising the Knowledge Base of the organisation	163
The teaming organisation	164
A process of knowledge accumulation and application in innovative firms	195
Combining commercial and technological strengths: a conceptual approach to the generation of new business opportunities	198
The degree of innovativeness	200
Leader/offensive	201
Fast follower/defensive	201
Gas E n l l in m i s u t i u r i / i n u t a t i v e	202
Market segmentation specialisation/traditional	202
A technology strategy provides a link between innovation strategy and business strategy	202
Case study: The cork industry, the wine industry and the need for closure	203
<i>Chapter summary</i>	212
<i>Discussion questions</i>	212
<i>Key words and phrases</i>	212
<i>Websites worth visiting</i>	212
<i>References</i>	213
<i>Further reading</i>	215
Strategic alliances and networks	216
Defining strategic alliances	217
The fall of the go-it-alone strategy and the rise of The octopus strategy	218
Complementary capabilities and embedded technologies	220
Interfirm knowledge-sharing routines	221
Forms of strategic alliance	221
Licensing	222
Supplier relations	222
Outsourcing	233
Joint venture	223
Collaboration (non-joint ventures)	223
F&D consortia	225
Industry clusters	225
Innovation networks	229
The 'virtual company'	230
Motives for establishing an alliance	239
The process of forming a successful strategic alliance	239
Risks and limitations of strategic alliances	241
The role of trust in strategic alliances	242

The concept of trust	233
Innovation risks in siradHjic outsourcing	234
The use of gama theory to analyse strategic alliances	? 3f
Game theory and the prisoner's dilemma	23B
Una ol allLHiicda m implementing technology strategy	239
Case study: The Hollywood film industry and the role of knowlRdge network organisations	240
<i>Chapter summary</i>	244
<i>Discussion questions</i>	245
<i>Tfep words end phrases</i>	245
<i>Websites worth visslmg</i>	245

Supporting resources

Visit www.pearsonedttti.uk/frott to find valuable online resources

Companion Website for students

- Self-test multiple choice questions, arranged by chapter¹, to test your understanding
- * Annotated links for each chapter to relevant sites on the web
- * Answers to all Pause for *thought* questions, to allow you to Check your progress

For Instructors

- * Complete Lecture Notes covering all chapters of the book
- * PowerPoint slides that can be downloaded and used for presentations
- * Extra case studies and exercises to facilitate teaching and learning
- * Solutions to all end of chapter discussion questions
- * Multiple choice questions, organised by chapter for use in assessment*

For more information please contact your local Pearson Education sales representative or visit www.pearsonedttti.co.uk/frott
