Contents

Chapter 1

Introduction 1

The Importance of Technological Innovation	1
The Impact of Technological Innovation on Society	2
Innovation by Industry: The Importance of Strategy	4
<i>The Innovation Funnel</i>	4
<i>The Strategic Management of Technological Innovation</i>	4
Summary of Chapter	9
Discussion Questions	9
Endnotes	9

PART ONE

INDUSTRY DYNAMICS OF TECHNOLOGICAL INNOVATION 11

Chapter 2

Sources of Innovation 13

Segway Human Transporter	13
Overview	15
Creativity	16
<i>Individual Creativity</i>	16
<i>Organizational Creativity</i>	16
Translating Creativity into Innovation	17
<i>The Inventor</i>	18
<i>Innovation by Users</i>	18
<i>Research and Development by Firms</i>	20
<i>Firm Linkages with Customers, Suppliers, Competitors, and Complementors</i>	21
<i>Universities and Government-Funded Research</i>	23
<i>Private Nonprofit Organizations</i>	25
Innovation in Collaborative Networks	25
<i>Technology Clusters</i>	26
<i>Technological Spillovers</i>	27
Summary of Chapter	28

Discussion Questions 29

Endnotes 30

Chapter 3

Types and Patterns of Innovation 35

Ericsson's Gamble on 3G Wireless	35
Overview	36
Types of Innovation	37
<i>Product Innovation versus Process Innovation</i>	37
<i>Radical Innovation versus Incremental Innovation</i>	38
<i>Competence Enhancing Innovation versus Competence Destroying Innovation</i>	39
<i>Architectural Innovation versus Component Innovation</i>	39
Technology S-curves	41
<i>S-curves in Technological Improvement</i>	41
<i>S-curves in Technology Diffusion</i>	44
<i>S-curves as a Prescriptive Tool</i>	45
Technology Cycles	49
Summary of Chapter	51
Discussion Questions	52
Endnotes	53

Chapter 4

Standards Battles and Design Dominance 55

The Rise of Microsoft	55
Overview	57
Why Dominant Designs Are Selected	57
<i>Learning Effects</i>	58
<i>Network Externalities</i>	59
<i>Government Regulation</i>	61
<i>The Result: Winner-Take-All Markets</i>	62
Multiple Dimensions of Value	63
<i>A Technology's Stand-alone Value</i>	63
<i>Network Externality Value</i>	64

*Competing for Design Dominance in Markets with
Network Externalities* 67

Summary of Chapter 71

Discussion Questions 71

Endnotes 71

Chapter 5

Timing of Entry 75

The Personal Digital Assistant Industry 75

Overview 78

First-Mover Advantages 78

Brand Loyalty and Technological Leadership 78

Preemption of Scarce Assets 79

Exploiting Buyer Switching Costs 79

Reaping Increasing Returns Advantages 80

First-Mover Disadvantages 80

Research and Development Expenses 81

*Undeveloped Supply and Distribution
Channels* 81

*Immature Enabling Technologies and
Complements* 81

Uncertainty of Customer Requirements 83

Factors Influencing Optimal Timing of
Entry 84

Strategies to Improve Timing Options 88

Summary of Chapter 89

Discussion Questions 89

Endnotes 90

PART TWO

FORMULATING TECHNOLOGICAL INNOVATION STRATEGY 93

Chapter 6

Defining the Organization's Strategic Direction 95

Redefining Handspring—Are Smart Phones a
Smart Move? 95

Overview 98

Assessing the Firm's Current Position 98

External Analysis 98

Internal Analysis 101

Identifying Core Competencies and
Capabilities 105

Core Competencies 105

The Risk of Core Rigidities 107

Dynamic Capabilities 108

Strategic Intent 109

Summary of Chapter 111

Discussion Questions 112

Endnotes 112

Chapter 7

Choosing Innovation Projects 115

Boeing's Sonic Cruiser 115

Overview 118

The Development Budget 119

Quantitative Methods for Choosing
Projects 119

Discounted Cash Flow Methods 122

Real Options 125

Qualitative Methods for Choosing
Projects 127

Screening Questions 127

Mapping the Company's R&D Portfolio 129

Q-Sort 131

Combining Quantitative and Qualitative
Information 131

Conjoint Analysis 132

Data Envelopment Analysis 135

Summary of Chapter 136

Discussion Questions 137

Endnotes 137

Chapter 8

Collaboration Strategies 141

The XenoMouse 141

Overview 143

Reasons for Going Solo 143

Advantages of Collaborating 145

Types of Collaborative Arrangements 148

Strategic Alliances 148

Joint Ventures 150

Licensing 150

Outsourcing 151

Collective Research Organizations 154
Choosing a Mode of Collaboration 155
Choosing and Monitoring Partners 157
 Partner Selection 158
 Partner Monitoring and Governance 159
Summary of Chapter 160
Discussion Questions 161
Endnotes 161

Chapter 9

Protecting Innovation 165

Sun Microsystems and Java 165
Overview 167
Appropriability 167
Patents, Trademarks, and Copyrights 168
 Patents 168
 Trademarks and Service Marks 172
 Copyright 173
Trade Secrets 175
The Effectiveness and Use of Protection Mechanisms 176
 Wholly Proprietary Systems versus Wholly Open Systems 177
 Advantages of Protection 179
 Advantages of Diffusion 180
Summary of Chapter 183
Discussion Questions 184
Endnotes 184

PART THREE

IMPLEMENTING TECHNOLOGICAL INNOVATION STRATEGY 187

Chapter 10

Organizing for Innovation 189

Procter & Gamble's "Organization 2005" 189
Overview 192
Size and Structural Dimensions of the Firm 193
 Size: Is Bigger Better? 193
 Structural Dimensions of the Firm 195

Mechanistic versus Organic Structures 199
Size versus Structure 199
The Ambidextrous Organization: The Best of Both Worlds? 200

Modularity and "Loosely Coupled" Organizations 202

Modular Products 202
Loosely Coupled Organizational Structures 203
Managing Innovation across Borders 204
Summary of Chapter 207
Discussion Questions 208
Endnotes 208

Chapter 11

Managing the New Product Development Process 213

Product Development at IDEO 213
Overview 215
Objectives of the New Product Development Process 215
 Maximizing Fit with Customer Requirements 215
 Minimizing Development Cycle Time 216
 Controlling Development Costs 217
Sequential versus Partly Parallel Development Processes 217
Project Champions 219
 Risks of Championing 219
Involving Customers and Suppliers in the Development Process 222
 Involving Customers 222
 Involving Suppliers 222
Tools for Improving the New Product Development Process 224
 Stage-Gate Processes 224
 Quality Function Deployment (QFD)—The House of Quality 227
 Design for Manufacturing 228
 Computer-Aided Design/Computer-Aided Manufacturing 229
Tools for Measuring New Product Development Performance 230

<i>New Product Development</i>	
<i>Process Metrics</i>	232
<i>Overall Innovation Performance</i>	232
Summary of Chapter	232
Discussion Questions	233
Endnotes	233
Chapter 12	
Managing New Product Development Teams	237
New Product Development at Dell	
Computer	237
Overview	238
Constructing New Product Development Teams	239
<i>Team Size</i>	239
<i>Team Composition</i>	239
The Structure of New Product Development Teams	242
<i>Functional Teams</i>	242
<i>Lightweight Teams</i>	243
<i>Heavyweight Teams</i>	243
<i>Autonomous Teams</i>	243
The Management of New Product Development Teams	245
<i>Team Leadership</i>	245
<i>Team Administration</i>	246
<i>Managing Virtual Teams</i>	247

Summary of Chapter	249
Discussion Questions	250
Endnotes	250

Chapter 13

Crafting a Deployment Strategy 253

Deployment Tactics in the U.S. Video Game Industry	253
Overview	258
Timing	259
<i>Strategic Timing of Entry</i>	259
<i>Optimizing Cash Flow versus Embracing Cannibalization</i>	260
Licensing and Compatibility	261
Pricing	262
Distribution	264
<i>Selling Direct versus Using Intermediaries</i>	264
<i>Strategies for Accelerating Distribution</i>	266
Marketing	268
<i>Major Marketing Methods</i>	268
<i>Tailoring the Marketing Plan to Intended Adopters</i>	270
<i>Using Marketing to Shape Perceptions and Expectations</i>	272
Summary of Chapter	275
Discussion Questions	276
Endnotes	276

Index 279
