

Hugo Tschirky/Hans-Helmuth Jung/Pascal Savioz (Hrsg.)

# **Technology and Innovation Management on the move**

From managing technology to managing  
innovation-driven enterprises

**Eine Publikation in der Reihe  
Technology, Innovation and Management  
herausgegeben von Prof. Dr. Hugo Tschirky  
Band 8**

**Verlag Industrielle Organisation**

# Table of Contents

<b>PART I-</b>	<b>TECHNOLOGICAL</b>	<b>AWARENESS.....</b>	<b>19</b>
<b>1</b>	<b>THE TECHNOLOGY A WARENESS GAP IN GENERAL MANAGEMENT</b>		<b>21</b>
1.1	Technology - Omnipresent Reality of Achievements and Threats.....		21
1.2	The technology management paradox.....		22
1.3	Moreover: Europe's Performance Gap.....		26
1.4	Facing the Two Gaps: What is Next?.....		28
1.5	A Longterm Perspective: The Concept Enterprise Science.....		28
<b>2</b>	<b>THE DIFFICULTIES IN MANAGING DISCONTINUOUS TECHNOLOGY CHANGE</b>		<b>35</b>
2.1	Two Pattern of Technology Change.....		35
2.2	Discontinuous Technological Change: The Case of the Photography Industry.....		36
2.3	The Main Reasons for the Difficulties Managing Discontinuous Technological Change..		38
2.3.1	Industry blindness.....		38
2.3.2	Managerial uncertainties.....		39
2.4	NextSteps.....		41
<b>PART II-</b>	<b>THE CONCEPT OF THE INTEGRATED TECHNOLOGY AND INNOVATION MANAGEMENT</b>		<b>43</b>
<b>3</b>	<b>THE CONCEPT OF INTEGRATED TECHNOLOGY AND INNOVATION MANAGEMENT</b>		<b>45</b>
3.1	Bringing Technology into Management: The Call from Reality.....		45
3.2	General Management Concept Open for Technology Issues.....		46
3.3	Symbiotic Connection Between Managing Technology and Managing Innovation.....		49
3.4	Management-Conscious Understanding of Technology.....		51
3.5	Technology-Conscious Tools of General Management.....		54
3.6	A Model Case of Technology and Innovation Management.....		103

**PART III- TASKS OF INTEGRATED TECHNOLOGY AND INNOVATION MANAGEMENT\_107**

<i>in 1-IDENTIFICATION &amp; SELECTION.....</i>	<i>109</i>
<b>4 TECHNOLOGY INTELLIGENCE - IMPROVING TECHNOLOGICAL DECISION-MAKING_iii</b>	
4.1 Introduction.....	111
4.2 The Technology Intelligence Process.....	112
4.2.1 Determination of information needs.....	112
4.2.2 Information acquisition.....	114
4.2.3 Information analysis.....	116
4.2.4 Information communication.....	118
4.3 Organization of the Technology Intelligence Process.....	119
4.3.1 Different technology intelligence structures.....	119
4.3.2 Company examples of the organization of the technology intelligence process	121
4.4 Conclusion.....	126
<b>5 TECHNOLOGYROADMAPPING - A METHOD FOR TECHNOLOGY PLANNING_127</b>	
5.1 Introduction.....	127
5.2 Technology Roadmapping: A Beneficial Approach.....	127
5.3 An Integrated Approach to Technology Roadmapping.....	129
5.4 Implementation of Technology Roadmapping.....	131
5.4.1 Best conditions for initiating the implementation.....	133
5.4.2 Implementation team.....	133
5.4.3 Implementation procedures.....	134
<b>6 EVALUATING AND INTRODUCING DISRUPTIVE TECHNOLOGIES_137</b>	
6.1 Introduction.....	137
6.2 A Framework for Investigating the Evaluation and Introduction of Disruptive Technologies	137
.....	137
6.3 The Practice of Evaluating and Introducing Nanotechnology in Switzerland.....	139
6.3.1 Initiation of technology evaluation.....	140
6.3.2 Technology scanning and monitoring.....	140
6.3.3 Technology valuation.....	141
6.3.4 Technology selection.....	142
6.3.5 Technology implementation.....	143

6.4	Management Principles for Evaluating and Introducing Disruptive Technologies .....	144
6.4.1	Technology scanning.....	146
6.4.2	Environmental scanning.....	147
6.4.3	Kickoff to technology evaluation.....	147
6.4.4	Technology evaluation.....	148
6.4.5	Technology selection.....	149
6.4.6	Technology introduction.....	150
 <i>in2-DEVELOPMENT &amp; ACQUISITION.....</i>		 <i>153</i>
<b>7</b>	<b><i>TECHNOLOGY TRANSFER - AN ACTION AND TECHNOLOGY PERSPECTIVE</i></b> .....	<b>155</b>
7.1	The Importance of Knowledge and Technology Transfer.....	155
7.2	The Process of Transferring Knowledge.....	157
7.2.1	Transferring data, information, and knowledge.....	157
7.2.2	Constitutive elements of technology transfer.....	158
7.2.3	Object of technology transfer: Knowledge.....	159
7.2.4	Recipient of technological knowledge.....	160
7.2.5	Drafting the technology transfer process.....	160
7.3	Developing an Action-Oriented Model of a Technology Transfer Process.....	162
7.3.1	Modeling.....	163
7.3.2	Coaching.....	163
7.3.3	Scaffolding and fading.....	164
7.3.4	Reflection.....	164
7.3.5	Exploration.....	164
7.4	Conclusions.....	165
<b>8</b>	<b><i>DEVELOPING TECHNOLOGICAL CORE COMPETENCIES - FRAMEWORK AND APPLICATION</i></b> .....	<b>167</b>
8.1	The Quest for Competitive Advantage: Insight from the Resource-Based View.....	167
8.2	Developing a Framework for the Development of (Technological) Core Competences ..	169
8.2.1	Development of cognitive advantage.....	169
8.2.2	Transformation: From idea to competence.....	169
8.2.3	Influencing market and competitor reaction.....	170
8.2.4	Realization of core competence's value.....	170
8.3	Case Study: New Technology-Based Firms (NTBF).....	172
8.3.1	Development of cognitive advantage.....	172
8.3.2	Transformation from idea to competence.....	173
8.3.3	Influencing market and competitor reaction.....	173

<b>9 TECHNOLOGY SOURCING VIA ACQUISITIONS - AN INTEGRATED TECHNOLOGY DUE DILIGENCE-PROCESS.....</b>	<b>175</b>
9.1 Introduction.....	175
9.2 Major Pitfalls in Technology-Intensive Acquisitions.....	177
9.2.1 Lack of appropriate pre-conditions.....	177
9.2.2 Inappropriate process design.....	181
9.2.3 Inappropriate integration approach and management.....	184
9.2.4 Lack of appropriate methodological competencies.....	186
9.3 Conceptual Framework: Outlook for an Integrated Technology Due Diligence.....	188
<b>10 COMPETENCE MANAGEMENT WITH THE OPPORTUNITY LANDSCAPE.....</b>	<b>191</b>
10.1 Introduction.....	191
10.2 Plan the Knowledge for Tomorrow - Today.....	191
10.3 The Opportunity Landscape.....	193
10.3.1 Definition of relevant and potential knowledge domains.....	193
10.3.2 Definition of the observation depth.....	194
10.3.3 Visualization of the Opportunity Landscape.....	194
10.3.4 Definition of the gatekeepers.....	194
10.3.5 Gatekeeper tasks and communication.....	195
10.3.6 Derivation of actions and updating.....	196
10.3.7 Implementation of the Opportunity Landscape.....	197
10.4 Two Case Studies.....	197
10.4.1 InstitutStraumannAG.....	197
10.4.2 Roche Instrument Center.....	198
10.5 Conclusion.....	199
<b>III3-EXPLOITATION &amp; PROTECTION.....</b>	<b>201</b>
<b>11 EXTERNAL DEPLOYMENT OF TECHNOLOGIES.....</b>	<b>203</b>
11.1 Introduction.....	203
11.2 Strategic Implications of External Technology Deployment.....	205
11.2.1 Reference framework.....	205
11.2.2 External technology deployment: opportunities and threats.....	206
11.2.3 The implication of technology characteristics.....	209
11.3 Marketing Instruments in Technology Markets.....	211
11.3.1 Objects of transfer.....	211
11.3.2 Communication channels.....	212

11.3.3	Mechanisms of earnings.....	213
11.3.4	Distribution channels.....	213
11.4	External Technology Deployment Success Factors.....	214
<b>12</b>	<b>DESIGN AND IMPLEMENTATION OF TECHNOLOGY MARKETING ORGANIZATIONS.....</b>	<b>215</b>
12.1	Main Issues of Technology Marketing.....	215
12.2	The Basic Tasks of Technology Marketing.....	216
12.3	The Technology Marketing Organization as a Socio-technical System.....	219
12.4	The Introduction of a New IP-Management System at Unaxis (Example 1).....	221
12.5	The Organization of Licensing and Spin-off Businesses at Siemens AG (Example 2)....	224
12.6	Discussion of the Two Examples.....	225
12.7	Implications for the Design and Implementation of Technology Marketing Organizations .....	227
<b>13</b>	<b>PATENT VALUATION - How THE MONETARY VALUE OF PATENTS CAN BE CALCULATED.....</b>	<b>229</b>
13.1	Introduction.....	229
13.2	The Importance of Patents in the Firms' Innovation Process.....	229
13.3	The Difficulty of Valuing Intellectual Property.....	230
13.4	Measuring the Value of Patents.....	230
13.5	Developing a DCF-Based Patent Valuation Methodology.....	234
13.5.1	Step 1: Technology-patent/product-matrix.....	234
13.5.2	Step 2: Calculating free cash-flows.....	236
13.5.3	Step 3: Key purchasing criteria (KPC).....	237
13.5.4	Step 4: Key technologies, key patents.....	238
13.5.5	Step 5: Patent protection factor (PPF) analysis.....	239
13.5.6	Step 6: Calculating patent value.....	240
13.6	Conclusion.....	241
<b>III4</b>	<b>CONTROL.....</b>	<b>243</b>
<b>14</b>	<b>SUCCESSFULLY IMPLEMENTING THE TECHNOLOGY STRATEGY.....</b>	<b>245</b>
14.1	Introduction.....	245
14.2	Design of a Technology Management Control System.....	245
14.2.1	Diagnostic technology control system.....	245
14.2.2	Interactive technology control system.....	246

14.2.3	Technology beliefs and boundary systems.....	246
14.2.4	A system for controlling technology strategy and performance.....	247
14.3	Practical Solutions Based on a Technology Management Control System.....	247
14.3.1	Infineon Technologies.....	247
14.3.2	Action research at Infineon: Technology performance measurement.....	249
14.4	Verifying the TMCS on the Basis of the Solution.....	256
14.4.1	Diagnostic technology control system.....	256
14.4.2	Interactive technology control system.....	257
14.4.3	Technology beliefs and boundary systems.....	258
14.5	Conclusion.....	258
 <b>III 5- TECHNOLOGY INNOVATION.....</b>		<b>261</b>
 <b>15 MANAGING THE EARLY PHASES OF THE RADICAL INNOVATION PROCESS__</b>		<b>263</b>
15.1	Introduction.....	263
15.2	Changing Attitudes Towards the Importance of Radical Innovations.....	263
15.3	Different Approaches to Managing the Early Phases of Radical Innovations.....	264
15.4	A Process View of the Early Phases of Radical Innovations__	266
15.5	Managerial Implications.....	270
15.6	Conclusion.....	272
<b>16 THE INNOVATIONS STRATEGY DEVELOPMENT PROCESS BASED ON INNOVATION ARCHITECTURE</b>		<b>273</b>
16.1	Introduction.....	273
16.2	The Importance of an Innovation Strategy.....	273
16.3	Developing an Innovation Strategy.....	274
16.3.1	Phase I: Identification.....	275
16.3.2	Phase II: Evaluation of innovation opportunities.....	280
16.3.3	Phase III: Formulating the innovation strategy.....	283
16.4	Summary and Outlook.....	283

**HI6 - TECHNOLOGY AND INNOVATION MANAGEMENT IN SME/NTBF \_\_\_\_\_ 285**

17	TECHNOLOGY MANAGEMENT FOR START-UPS: POCCKET-TM.	287
17.1	Introduction.....	287
17.2	Definition of the NTBF.....	287
17.3	Does an NTBF need Technology Management - a PockeTM?.....	288
17.4	Five Key Elements of PockeTM.....	289
17.4.1	Doing technology intelligence.....	289
17.4.2	Development of technology strategy.....	290
17.4.3	Controlling technology management.....	292
17.4.4	Knowledge management.....	293
17.4.5	Network management.....	294
17.5	Integration of PockeTM in the Firm Context.....	295
	REFERENCES.....	297
