## PART I

### Molecularizing maps

#### 1 Mapping genes in microorganisms

ANGELA N.H. CREAGER

*Bacterial variation and nutritional mutants 11*

*From nutritional mutants to genetic mapping in*

*E. coli and bacteriophage 16*

*Bacterial sexual differentiation—fertility factors, conjugation,  
and transduction 23*

*Concluding reflections 30*

#### 2 Seymour Benzer and the convergence of molecular biology with classical genetics
