The Cover Symbolism
The color bands represent the fourteen participating countries. We see clearly over the horizon, aided by the power of the ISO/NLC conference glasses, countries working to form a rainbow relationship. Each country has unique characteristics yet all are bonded together to promote trade excellence. The experiences have made a positive impact on each of us as symbolized by the curvature of the color bands moved upward by the conference emblems. This beautiful relationship and unique opportunity for international understanding has been experience through the Skill Olympics.
