About the Author.....	xvii
About the Technical Reviewer.....	xix
Acknowledgments.....	xxi
Introduction.....	xxiii
-CHAPTER 1 SharePoint Business Solutions.....	1
The SharePoint Marketplace.....	1
Segmenting Information Workers.....	2
Transactors.....	2
Professionals.....	2
Executives.....	3
Grouping Information Workers.....	3
Individuals.....	3
Departmental Teams.....	3
Divisional Groups.....	4
Enterprise.....	4
Extended Enterprise.....	4
Information Worker Challenges.....	4
The System Challenge.....	5
The Information Challenge.....	6
The Process Challenge.....	6
The Collaboration Challenge.....	6
The Access Challenge.....	7
The Management Challenge.....	8
The Regulatory Challenge.....	9
Understanding Business Scenarios.....	9
Increasing Individual Productivity.....	9
Increasing Team Productivity.....	10
Increasing Divisional and Enterprise Productivity.....	11
Supporting Remote Workers.....	12
Integrating with Partners and Customers.....	13
Complying with Regulations.....	14

	Analysis and Design Considerations.....	15
	Documenting the Business Vision.....	15
	Documenting Policies, Practices, and Regulations.....	16
	Project and Design Documents.....	18
	Managing Change.....	18
a	CHAPTER 2 SharePoint Overview, Planning, and Installation.....	21
	Windows SharePoint Services.....	21
	Document Libraries.....	22
	Lists.....	23
	Web Parts and Custom Development.....	24
	Site Creation and Branding.....	25
	Microsoft Office 2007.....	25
	Document Panels.....	26
	Working Offline, While Mobile, or With Peers.....	26
	Microsoft Office 2007 Suites.....	27
	Microsoft Office SharePoint Server.....	27
i	Portal Features.....	28
	Enterprise Content Management.....	28
	Business Intelligence.....	29
*	Shared Services.....	30
*	MOSS Versions.....	30
*	Installation Considerations.....	30
{•	User Capacity Planning.....	30
3..	Storage Capacity Planning.....	31
9, .. t, , ,	Access and Authentication Planning.....	31
3..... \#.	Limitations.....	33
3.....	Deployment Architectures.....	34
V.....	Exercise 2.1. Creating a Development Environment.....	35
a.....	Prerequisites.....	36
e.....	Section 1: Installing Virtual Server 2005.....	37
e, , , ;	Section 2: Creating the VPC Images.....	38
e.....	Section 3: Creating the Domain Controller.....	41
or..... ?	Section 4: Creating the Database Server.....	46
1 r.....	Section 5: Installing Windows SharePoint Services.....	48
sr.....	Section 6: Installing Microsoft Office SharePoint Server.....	55
er.....	Section 7: Creating a Test Client.....	64

CHAPTER 3	SharePoint Fundamentals.	65
	Managing Users.	65
	Understanding Permission Levels and SharePoint Groups.	67
	Configuring Anonymous Access.	70
	Understanding Security Policies	70
	Managing Site Structure.	71
	Working with Sites.	72
	Working with Lists.	73
	Configuring E-Mail-Enabled Lists.	79
	Working with Pages.	80
	Understanding Alerts and RSS Feeds	81
	Understanding Features.	82
	Understanding Authentication Options.	83
	Extending Web Applications.	84
	Using Forms Authentication,	84
	Using Web Single Sign-On.	90
	Using Active Directory Account Creation Mode.	90
	Extending Web Applications Outside the Firewall.	90
	Working with Alternate Access Mappings.	90
	Enabling Secure Sockets Layer.	91
	Exercise 3.1. Creating a Secure Internet Site.	91
	Extending the Web Application.	92
	Creating an Alias.	92
	Installing Certificate Services.	93
	Requesting a New Certificate	94
	Creating a New Certificate.	96
	Installing the New Certificate.	96
	Configuring Forms Authentication.	97
	Adding a New Incoming URL.	100
	Testing Secure Access.	100
CHAPTER 4	SharePoint Shared Services.	103
	Creating and Managing Shared Services Providers.	103
	Configuring Search.	105
	Crawling Content Sources.	105
	Including File Types.	106
	Understanding Search Scopes.	108
	Using Keywords and Best Bets.	109
	Reporting on Search Usage.	109

-a	Using Audiences.....	109
	Understanding User Profiles.....	111
66,	Personalization with My Site.....	116
[[Using My Site.....	117
V	customizing My Site.....	118
	Publishing Links.....	119
«»- ± i..• t' '	Using Excel Services.....	119
^	Configuring Excel Services.....	119
::	Using Parameters in Excel Services.....	121
:'	Using Data Connections.....	123
	Using Excel Web Services.....	124
!H	Creating User-Defined Functions.....	124
	Integrating the Business Data Catalog.....	125
	Understanding Metadata.....	126
	Uploading the Application Definition.....	136
	Using BDC Information.....	138
OP		
↑^	Exercise 4.1. Custom Solutions with Excel Services.....	141
^	Trusting a Document Library.....	141
;	Creating the Mileage Calculator Spreadsheet.....	142
/'	Creating the New Project.....	143
(.	Coding the Application.....	143
5 SharePoint Content Development and Management		147
£6	Understanding Site Collection Templates.....	147
**	Adding and Editing Pages.....	149
*•	Using Web Parts.....	151
3£	Connecting Web Parts.....	153
w	Modifying the Site Look and Feel.....	154
*>»!	Customizing Site Navigation.....	154
Qfjr	Using Themes and Styles.....	154
	Customizing with the SharePoint Designer.....	155
••	Understanding Contributor Mode.....	156
	Adding a New Page.....	157
	Working with Data Sources.....	159
" " • • •	Working with Data Views.....	162
;' V •	Understanding the Impact of Customization.....	162
r ^	Saving Customized Templates.....	164
* !	Creating Site Templates.....	164
	Creating List Templates.....	165

Using the Publishing Feature.	165
Creating a Public Internet Site.	165
Creating and Approving Pages.	168
Using an Alternate Style Sheet.	171
Understanding Master Pages and Page Layouts.	171
Editing the Default Master Page.	171
Creating New Page Layouts.	174
Creating New Master Pages.	176
Enabling Site Variations.	180
Using Content Deployment.	181
Exercise 5.1. Web Content Management.	182
Creating a New Site.	182
Activating and Configuring the Publishing Feature.	183
Creating a New Welcome Page.	187
Defining Site Columns.	188
Defining the Content Type.	188
Creating the Page Layout.	189
Editing the Page Layout.	189
Publishing the Page Layout.	191
Using the Page Layout.	191

SharePoint Document, Form, and Records Management193

Working with Content Types, Lists, and Libraries.	193
Understanding Site and List Columns.	195
Working with Views.	196
Using New Content Types.	198
Configuring Document Library Enhancements.	200
Working with InfoPath and Form Libraries.	203
Creating Template Parts.	203
Importing Word and Excel Documents.	207
Using Data Connection Libraries.	209
Developing with Visual Studio Tools for Applications.	210
Understanding InfoPath Forms Services.	216
Using the Document Conversions Service.	220
Understanding Records Management.	221

CONTENTS

.	Exercise 6.1. InfoPath and SharePoint	222
•	Prerequisites	223
•«;	Creating a Customer Issues Site	223
ftf.	Creating the Customer Issues Form	224
»r.	Publishing the Form	226
ru.	Configuring the Form Library	227
»v.	Using the New Form	228
v. r :	Exercise 6.2. Document and Records Management	229
Oftr.	Prerequisites	229
•Bt	Defining Site Columns	229
SB 1	Defining Site Content Types	230
sar.	Creating the Document Library	232
£8f.	Creating the Records Repository	233
var.	Configuring the Records Repository	233
" > •	Archiving a Document	234
«J:.	Creating a Hold Category	235
car		

BHAPTER 7 SharePoint Custom Features and Workflows. 237

[U	Building Custom Features	237
	Understanding the Feature Architecture	237
	Adding Actions to Menus and Toolbars	240
	Using Custom Action Pages	243
	Using Tokens to Retrieve Information	247
>t".	Adding New Files to a Site	248
atjr.	Understanding Feature Receivers. •&)&\$&.	249
aer.	Receiving Site, List, and Item Events	253
vr.	Building and Using Workflows	257
;-_ffi	Using Built-in Workflows	258
vnz	Creating Custom Workflows in Visual Studio	259
2K.	Creating Workflows in SharePoint Designer	265
-.*	Creating Custom Activities	266
ijs.	Considering Workflow Options	272

Exercise 7.1. Building an Employee Performance Review Workflow...	273
Creating the InfoPath Workflow Forms	273
... Creating the Workflow Project	281
Publishing the Forms	281
. Developing the Project	282
Coding the Project	287
. Building the Project	291
Deploying the Workflow	291
. Using the Workflow	294
CHAPTER 8 SharePoint Business Intelligence Solutions	295
Understanding Report Center	295
Using Scorecards	296
Using Reports	297
Understanding Data Source Options	300
Using SharePoint Lists as Data Sources	300
Using Spreadsheets as Data Sources	302
Using Cubes as Data Sources	303
Integrating SQL Reporting Services	308
Reporting Services Web Parts	310
SQL Server 2005 Service Pack 2	311
Exercise 8.1. Creating a Dashboard	312
Installing the AdventureWorks Data Warehouse	312
Building and Deploying a Cube	313
Browsing the Cube in Excel	316
Adding the Data Connection	317
Creating a Report	318
Building the Dashboard	319
CHAPTER 9 SharePoint and Microsoft Office	321
Managing Document Information	321
Utilizing the Document Management Information Panel	321
Using the Research Library	323
Working with Quick Parts	324
Creating Custom Document Information Panels	326
Going Offline	327
Going Mobile	329

	Using the Office Open XML File Formats	332
	Understanding Document Packages	333
	Using System.IO.Packaging	336
	Developing with Visual Studio Tools for Office	341
!aK.,	Creating a Development Environment	341
Tas.	Creating Office 2007 Add-Ins	343
m	Creating Office 2007 Task Panes	347
r<K.	Deploying VSTO 2005 SE Solutions	350
MS;	Exercise 9.1. Using the Office Open File Formats	353
	Starting the Project	354
28\$.....a	Coding WordCleaner. Worker	355
	Creating the Worker.aspx Page	359
365	Coding the Worker.aspx Page	360
	Creating the Feature.xml file	361
	Creating the Elements.xml file	362
	Creating the Install.bat file	362
	Activating and Using the Feature	363
•CHAPTER 10	SharePoint Web Parts	365
orr	Web Part Basics	365
tit	Web Part Properties	366
	Rendering Web Parts	367
	The Web Part Life Cycle	369
£	Deploying Web Parts	373
	Understanding Deployment Options	373
	Building the Web Part	375
a*,	Code Access Security	376
tut ..	Creating Solution Packages	381
	Using Custom Web Parts	384
(££	Using Client-Side Script	384
	Building Connectable Web Parts	387
r2£	Building Custom Connection Interfaces	387
fSS	Using Standard Connection Interfaces	389
^	Custom Editor Parts	396
>se	Creating an Editor Part	397
d s r	Using an Editor Part	398
1ST.		
6SS.		

Exercise 10.1. A Complete Web Part	399
Installing the AdventureWorks Database	400
Creating the New Project	400
Coding the Web Part	401
Deploying the Web Part	404
Using the Web Part	407
Exercise 10.2. Connectable Web Parts	408
Adding the Filter Property	409
Adding the Callback Method	409
Modifying the SQL Statement	409
Building and Deploying the Web Part	410
Creating the Contact List	410

ii

KHAPTER 11 Programming SharePoint Services.....411

Understanding Site Definitions.....	411
Creating a New Site Definition.....	412
Customizing the Site Definition.....	416
Understanding the SharePoint Object Model	421
Getting Started with the Object Model	421
Accessing Site Collections and Sites.....	423
Elevating Permissions.....	424
Accessing Lists and List Items	425
Accessing User Information.....	426
Using SharePoint Web Services.....	428
Working with Site Data.....	429
Working with List Data.....	429
Using the Single Sign-On Service.....	435
Setting Up SSO.....	435
Using SSO in Code.....	440
Exercise 11.1. Creating a Site Definition.....	443
Copying the Site Definition.....	443
Modifying the Configurations Section.....	444
Modifying the Modules Section.....	446
Using the Site Definition.....	446
Exercise 11.2. Building a Site Explorer.....	446
Adding the Web Reference.....	447
Returning All Sites.....	447
Adding Child Sites.....	449
Running the Sample.....	449

(CHAPTER 12 SharePoint Operations and Administration.....451

- ^ Using Backup and Restore. «u *** «+.*!..... 451
- m Creating a Target Folder..... 451
- Mt- Performing a Backup..... 453
- µL Performing a Restore..... 454
- m Using Logs and Reports..... 454
- p^ Working with the Unified Logging Service..... 455
- ^ Working with Portal Usage Reporting..... 456
- LW Working with Information Management Policy Usage Reports ... 458
- or» Configuring Caching Options..... 459
- ^ Understanding Cache Profiles..... 460
- Configuring Output Caching..... 461
- Configuring Object and Disk Caching..... 462
- Using Windows Rights Management..... 463
- UP. Preparing for RMS Installation..... 464
- sr*. Installing the RMS Server..... 465
- tfr?.....Configuring RMS in the SharePoint Farm..... 467
- Using RMS with Documents..... 467
- Configuring Antivirus Protection..... 468
- cs*. Quiescing the Farm..... 469
- *sfr ... Cleaning Up Unused Sites..... 470
- m Implementing Quotas and Locks..... 472
- #&. Using the Command-Line Utility..... 473
- 3St. Exercise 12.1. Creating a Log Viewer Feature..... 474
- ssv ...! Creating the ULLogViewer Page..... 474
- i*1* Creating the Feature File..... 483
- &>. Creating the Manifest File..... 483
- 20. Deploying the Feature..... 484
- ;;,fc. Hat
