Introduction	i
<b>1 Collaborative Application Markup Language (CAML) Primer</b>	<b>5</b>
The CAML Language	5
Querying a List	8
Using the U2U CAML Query Builder	11
Summary	12
<b>Part I Programming with the SharePoint Object Model</b>	
<b>2 Introduction to the SharePoint Object Model</b>	<b>15</b>
First Look at the Object Model	15
Development Scenarios and Sample Applications	17
Developing Applications on the Server	17
Developing Web Parts	18
Developing Remote Applications	18
Setting Up Your Development Environment	18
Setting Up a Local Development Environment	19
Setting Up a Remote Development Environment	20
Creating Your First Object Model Application	21
Deploying Your Application	22
Summary	22
<b>3 Programming with Features and Solutions</b>	<b>25</b>
Overview of Features and Solutions	25
Programming with Features	26
Enumerating Features and Feature Definitions	27
Activating and Deactivating Features	29
Using Feature Properties	30
Installing and Removing Feature Definitions	31
Programming with Solutions	31
Installing and Removing Solutions	32
Enumerating Solutions	32
Controlling Solution Deployment	34
Summary	34

**4 Working with Sites and Webs**

Understanding Webs and Sites.....36

Using the SPWeb Class.....36

    Creating Sites.....39

    Accessing Site Information.....41

    Updating Sites.....42

Using the SPWeb Class.....42

    Creating Webs.....44

    Accessing Web Information.....45

    Updating Webs.....46

summary.....jsi^i^^

**5 Managing SharePoint Lists** " n j l l W I J f **47**

List Management Basics.....47

Enumerating Lists.....48

Enumerating List Contents.....51

Adding, Removing, and Updating Lists.....53

Manipulating List Items.....56

Using Lookup Types in Lists.....58

Summary.....58

**6 Advanced List Management** **59**

Accessing BDC Data in Lists.....59

Querying List Items with CAML.....62

Creating Parent/Child Relationships in a Single List.....64

Summary.....68

**7 Handling List Events** **69**

Introduction to List Event Handlers.....69

Creating Event Receivers.....70

    Creating List Event Receivers.....70

    Creating List Item Event Receivers.....73

Deploying Event Receivers.....77

    Deploying Event Receivers Programmatically.....77

    Deploying Event Receivers with Features.....77

    Deploying Event Receivers with Content Types.....81

Summary.....81

<b>8</b>	<b>Working with Document Libraries and Files</b>	<b>83</b>
	Document Library Basics	83
	Working with the Document Library Object Model	84
	Building a Document Library Explorer Sample	86
	Working with Versioning	91
	Checking Files Out	91
	Checking Files In	91
	Manipulating Folders and Files	94
