>H III ^*VM. 1-111) :-

Preface	vii
Perspectives: Qualitative computing and NVivo	
Qualitative research purposes and NVivo	2
Issues raised by using software for qualitative data analysis	7
What does an NVivo project look like?	11
About this book	18
Starting a project	21
Starting	22
Starting with software	24
Saving your project	37
Making data records	39
Data for your project	40
Data in cases	
Data preparation	
Data records in NVivo	
Managing data sources in NVivo	56
4 Working with data	
Goals for early work with data	
Gaining perspective on the text	\$1
Building knowledge of the data through coding	
Storing coding in nodes	
Reflecting on the case	
5 Connecting ideas	
Development of the coding system	100
Making connections across trees (and other items)	110
Coding in practice	121
Managing coding	127

QUALITATIVE DATA ANALYSIS WITH NVIVO

Managing data		131
Managing data sources		131
Bringing demographic or other quantified data into your analysis		135
Scoping queries §		148
7 The 'pit stop'		155
Seeing data afresh in nodes		164
Searching text		172
Revisiting the literature		173
Pausing to 'play' with models		175
The periodic pause		177
8 Going further		177
The analytic journey		178
Queries in NVivo		180
Starting the journey...		182
Going further with cases		184
Going further with concepts		189
Going further with narrative and discourse		193
Using numerical counts when analyzing text		200
Going further into theory building		201
Moving on - further resources		208
