

Environmental trends and perspectives in the Western Balkans: future production and consumption patterns

Contents

List of abbreviations.....	5
Acknowledgements.....	6
Summary.....	7
Recent environmental trends.....	7
Driving forces.....	8
Household consumption patterns.....	10
Production patterns.....	10
Impacts on the region's environment — some glimpses into the future	i3
Information base to support forward-looking integrated environment assessments in Western Balkans.....	13
Production, consumption — and cleaner growth	14
Introduction.....	15
Forward-looking studies in the Western Balkans.....	15
The socio-economic and political context.....	17
Overview of the sections of this report.....	19
Part I: Environmental trends.....	21
1 Environmental trends in the Western Balkans.....	21
1.1 Pollution and environmental health: air pollution.....	22
1.2 Pollution and environmental health: water pollution and water services.....	24
1.3 Ecosystems and biodiversity.....	26
1.4 Greenhouse gas emissions and climate change.....	30
1.5 Resource use and waste: land use.....	32
1.6 Resource use and waste: the marine and coastal environment.....	35
1.7 Resource use and waste: solid waste.....	38
1.8 Resource use and waste: water supply.....	40
Part II: Driving forces.....	42
2 Driving forces that shape environmental futures in the Western Balkans.....	42
2.1 A framework for analysing driving forces.....	42
2.2 Population and migration.....	45
2.3 Culture, values and needs.....	49
2.4 Technology.....	53
2.5 Globalisation and trade.....	57
2.6 Macro-economic developments.....	62
2.7 Markets and business.....	66
2.8 Global environmental change.....	69
2.9 Politics: from global to national.....	73
2.10 Legislation and policy	81
Part III: Consumption and production patterns, trends and outlooks.....	84
3 Key areas of household consumption.....	84
3.1 Food consumption.....	87
3.2 Residential energy consumption.....	92
3.3 "Personal mobility.....	96

4	Key sectors of production.....	100
4.1	Agriculture.....	102
4.2	Fisheries.....	108
4.3	Energy production... ..	111
4.4	Freight transport.....	115
	Part IV: Glimpses of environmental futures.....	117
5	Impacts on the region's environment: a glimpse of possible futures.....	117
5.1	• Pollution and environmental health: air pollution.....	119
5.2	Pollution; and health; water pollution and water services	121
5.3	Greenhouse gas emissions and climate change.....	122
5.4	Ecosystems and biodiversity.....	123
5.5	Resource use and waste: land use.....	124
5.6	Resource use and waste: solid waste.....	127
5.7	Resource use and waste: water consumption.....	129
5.8	Resource use and waste: marine and coastal environment.....	131
6	The role of key actors in shaping environmental futures in the Western Balkans.....	132
6.1	Preparing for an uncertain future.....	132
6.2	Taking action.....	132
	Annexes — Introduction.....	134
	Annex 1 Overview of available data for past and forward-looking trends of EEA core set of indicators in the Western Balkan countries.....	136
	List of references for past and forward-looking indicators.....	139
	Annex 2 EEA core set of indicators — assessments for the Western Balkan region ..	144
	Air.....	145
	Agriculture.....	152
	Biodiversity.....	153
	Climate change.....	154
	Energy.....	155
	Terrestrial.....	165
	Transport.....	166
	Waste.....	170
	List of countries covered by each indicator.....	171
