

European waters — assessment of status and pressures

Contents

Acronyms and abbreviations	5
Acknowledgements	6
Executive summary	7
1 Introduction	12
1.1 EEA 2012 'State of Europe's water' reports	12
1.2 European water policies	15
2 Data sources, methodology and uncertainties	18
2.1 Data sources	18
2.2 Methodology	19
2.3 Improved knowledge, but ambiguous results due to data gaps and methodology issues	22
3 Trends in status of and pressures affecting waters up to the first RBMPs.....	23
3.1 Trends in water quality and pollution	23
3.2 Improved wastewater treatment	24
3.3 Eutrophication and diffuse pollution	28
3.4 Hydromorphological pressures and impacts	31
3.5 Conclusion and summary of results	36
4 Ecological status and pressures.....	37
4.2 Main pressures and impacts affecting ecological status for all water categories.....	40
4.3 Designation of heavily modified and artificial water bodies.....	46
4.4 Ecological status, pressures and impacts across Member States and sea regions	48
5 Chemical status	54
5.1 Introduction and background	54
5.2 European overview of chemical status	54
5.3 Chemical status by Member State and RBD	56
5.4 Legislation continues to play an important role but challenges remain	61
6 Protection of Europe's aquatic ecosystems and their services	63
6.1 Joint benefits of <i>coordinated</i> nature conservation and water management	63
6.2 Relevant aquatic habitats in the Natura 2000 network	64
6.3 Conservation status of aquatic habitats and species.....	66
6.4 Most frequent pressures affecting aquatic habitats	68
6.5 Habitats and Water Framework Directives' measures	68
6.6 Conclusions and summary	72

7	Challenges for achieving good status of waters	73
7.1	Current trends and future challenges.....	73
7.2	Objectives and current goals for achieving good status	74
7.3	Possible solutions and measures	77
7.4	Measures for reducing pollution	77
7.5	Restoring altered habitats and reducing hydromorphological pressures	79
7.6	Further considerations for the next phase of RBM planning	86
