

Epigeic spider communities at the timberline of  
Alp Flix (Switzerland: Grisons)

**Diplomarbeit**

der Philosophisch-naturwissenschaftlichen Fakultät  
der Universität Bern

vorgelegt von

Holger Frick

2005

Leiter der Arbeit:

Prof. Dr. Wolfgang Nentwig,

Zoologisches Institut der Universität Bern

## Table of contents

### Part 1: Influence of stand-alone trees on epigeic spiders (Araneae) at the alpine timberline

Titel .....	5
Abstract .....	6
Introduction.....	7
Methods.....	7
Study area .....	7
Sampling of spiders.....	8
Parameters.....	8
Data analysis.....	9
Results.....	11
Community composition.....	11
Activity densities of selected species.....	12
Discussion.....	14
Community composition.....	14
Activity densities of selected species.....	15
Acknowledgements.....	18
References.....	18
Figures.....	23
Tables.....	29

Part 2: Spiders (Arachnida: Araneae) of the timberline in the Swiss Central Alps (Alp Flix, Grisons)

Title.....	31
Abstract .....	32
Introduction .....	33
Methods.....	33
Study site.....	33
Study period.....	34
Sampling methods for spiders on trees.....	34
Sampling methods for ground dwelling spiders.....	35
Determination.....	36
Results and Discussion.....	36
List of species.....	36
Comments on first records, endemic and rare species and their phenology.....	36
Acknowledgements.....	44
References.....	44
Figures.....	53
Tables.....	56
