

The contribution of transport to air quality

TERM 2012: transport indicators tracking progress
towards environmental targets in Europe

Contents

Acknowledgements	4
Foreword	5
1 Introduction	8
2 TERM Core Set of Indicators	10
2.1 Introduction	10
2.2 Overview of progress towards transport goals.....	10
2.3 Overview of the 2012 TERM-CSIs	14
3 Freight and passenger transport demand and modal split	27
3.1 Introduction	27
3.2 Freight transport.....	27
3.3 Passenger transport	30
4 Air policy review and transport	32
4.1 Overview of air policy	32
4.2 Contribution of transport to emissions and air quality	33
4.3 Real-world emission performance of vehicles	35
4.4 Contribution of transport to secondary air pollutants.....	35
4.5 Air quality and climate change linkages.....	36
5 Local effects of transport on urban air quality	40
5.1 Urban traffic and air pollution	40
5.2 Impacts of road transport policies and measures on air quality in European cities	42
5.3 Air pollution around sea ports and airports	44
6 Regional scale effects of transport on air quality	48
6.1 Background air pollution from road transport.....	48
6.2 Effects of shipping emissions on air quality	50
6.3 Effects of aviation emissions on air quality	53
7 Main messages and conclusions	54
Acronyms and abbreviations	56
References	58
Annex 1 Metadata and supplementary information	69
Annex 2 Relevant transport targets up to 2050	72
Annex 3 Explaining the target paths	73
Annex 4 Major pollutants for which transport emissions are important	79
Annex 5 Overview of the TERM fact sheets	81
Annex 6 Data	83
