

PROCEEDINGS  
OF THE  
X<sup>th</sup> INTERNATIONAL  
ORNITHOLOGICAL  
CONGRESS

*Uppsala June 1950*

UNDER THE PRESIDENCY OF  
ALEXANDER WETMORE

*Edited by*  
SVEN HÖRSTADIUS  
GENERAL SECRETARY

Printed at *Almqvist & Wiksell* · Uppsala 1951

## Contents

The Xth International Ornithological Congress . . . . .	13
The Congress at Uppsala 10th—17th June 1950 . . . . .	13
Excursions before and after the Congress . . . . .	20
Birds observed during the excursions . . . . .	28
Programme . . . . .	34
List of Delegates . . . . .	42
List of Members of the Congress . . . . .	45
ALEXANDER WETMORE: Presidential Address. Recent Additions to our Knowledge of Prehistoric Birds 1933—1949 . . . . .	51
SVEN HÖRSTADIUS: Introduction to Swedish Ornithology . . . . .	75

### Evolution and Systematics

ERNST MAYR: Speciation in Birds. Progress Report on the Years 1938—1950	91
ERWIN STRESEMANN: Der Einfluss philosophischer Naturbetrachtung auf die ornithologische Systematik . . . . .	132
ELSA G. ALLEN: A Sixteenth Century Classification of Birds . . . . .	139
ALESSANDRO GHIGI: Nomenclature in Guinea Fowls . . . . .	144
FINN SALOMONSEN: A Nomenclatorial Controversy: The Genus <i>Colymbus</i> Linnaeus 1758 . . . . .	149
R. MEINERTZHAGEN: Desert Colouration . . . . .	155
CHARLES VAURIE: Adaptive Differences between Two Sympatric Species of Nuthatches ( <i>Sitta</i> ) . . . . .	163
JAMES M. HARRISON: Some Phylogenetic Trends in <i>Garrulus glandarius</i> Linnaeus and <i>Dendrocopos major</i> (Linnaeus) . . . . .	167
W. B. YAPP: Ecological Speciation in the Genus <i>Phylloscopus</i> . . . . .	173
DEAN AMADON: Evolution of the Hawaiian Honeycreepers (Family <i>Drepanididae</i> ) . . . . .	176
K. H. VOOUS: Distributional and Evolutionary History of the Kingfisher Genus <i>Ceyx</i> in Malaysia . . . . .	177
DEAN AMADON: Madagascar's Pseudo-sunbird . . . . .	184

ROBERT A. H. COOMBES: Two races of Bean Goose <i>Anser arvensis</i> in Western Europe . . . . .	185
ROBERT CUSHMAN MURPHY: The Populations of the Wedge-Tailed Shearwater ( <i>Puffinus pacificus</i> ) . . . . .	189
CHRISTIAN JOUANIN: Remarques sur les Cormorans de la région australe américaine . . . . .	193
JEAN DORST: Considérations sur la systématique des Turdinés . . . . .	199
THERESA CLAY: The Mallophaga as an Aid to the Classification of Birds with Special Reference to the Structure of Feathers . . . . .	207

### Migration and Orientation

RUDOLF DROST: Study of Bird Migration 1938—1950 . . . . .	216
A. LANDSBOROUGH THOMSON: Reproduction, Migration and Moulting: Factors Controlling the Annual Cycle in Birds . . . . .	241
R. E. MOREAU: The Migration System in Perspective . . . . .	245
ERNST SCHÜZ: Überblick über die Orientierungsversuche der Vogelwarte Rossitten (jetzt: Vogelwarte Radolfzell) . . . . .	249
GUSTAV KRAMER: Eine neue Methode zur Erforschung der Zugorientierung und die bisher damit erzielten Ergebnisse . . . . .	269
GUSTAF RUDEBECK: Some notable factors concerning the migration of palaeartic birds . . . . .	281
AXEL M. HEMMINGSEN: The Relation of Spring Migration to Day Length and Solar Radiation . . . . .	284
AXEL M. HEMMINGSEN: The Relation of Bird Migration in North Eastern China to Body Weight and its Bearing on Bergmann's Rule . . . . .	289
CARL EDELSTAM: The Ottenby Bird Station . . . . .	295
RICHARD HYLBOOM: Migration Period of Some Passerines Revealed by Daily Ringing Figures at Ottenby . . . . .	310
GUSTAF RUDEBECK: The migration of birds of prey in southern Sweden, particularly at Falsterbo . . . . .	317
R. B. SIBSON: Some Aspects of Bird Migration in New Zealand . . . . .	320
ALFRED VAN BENEDEN: Quelques aspects de la Migration d'Août en Belgique . . . . .	326
TORSTEN MALMBERG: Bird Migration in NW Scania . . . . .	330
GUNNAR SVÄRDSON: Swift ( <i>Apus apus</i> L.) Movements in Summer . . . . .	335
JOHN BERRY: Migration to North Norway of Barnacle Geese which had been bred in Scotland . . . . .	339
G. BOUET: Les Cigognes blanches de l'Afrique du Nord et leurs Migrations . . . . .	341
POUL JESPERSEN: Contribution à la Connaissance de la Migration des Cigognes Blanches ( <i>Ciconia ciconia</i> (L.)) en Afrique du Nord . . . . .	344

AXEL M. HEMMINGSEN: Observations on the Migration of the Eastern White Störk ( <i>Ciconia ciconia boyciana</i> Swinhoe) . . . . .	351
Round Table Conference on Bird Ringing . . . . .	354
Bird-Ringing Schemes compiled by W. RYDZEWSKI . . . . .	356

### Behaviour

N. TINBERGEN: Recent Advances in the Study of Bird Behaviour . . . . .	360
ERIC FABRICIUS: Some Experiments on Imprinting Phenomena in Ducks . . .	375
HOLGER POULSEN: Inheritance and Learning in the Song of the Chaffinch, <i>Fringilla coelebs</i> L. . . . .	380
O. KOEHLER: Vögel erlernen unbenannte Anzahlen . . . . .	383
DIETER BURCKHARDT and JOSEPH A. MURNIN: The Display of the Satin Bowerbird, <i>Ptilonorhynchus violaceus</i> Vieill. . . . .	393
HOLGER POULSEN: Colourfilms: The Greeting Ceremony of the Shoe-Billed Heron, <i>Balaeniceps rex</i> L. Gd. and the Courtship Display of the Condor, <i>Vultur gryphus</i> L. . . . .	396
FRITZ STEINIGER: Tierpsychologische Beobachtungen bei der Photographie freilebender Vögel . . . . .	398

### Ecology

DAVID LACK: Population Ecology in Birds. A Review . . . . .	409
JAMES FISHER: The changes in the distribution of the fulmar ( <i>Fulmarus glacialis</i> ) . . . . .	449
JAMES FISHER and H. G. VEVERS: The Present Population of the North Atlantic Gannet ( <i>Sula bassana</i> ) . . . . .	463
A. KEVE and M. D. F. v. UDVARDY: Increase and Decrease of the Breeding Range of Some Birds in Hungary . . . . .	468
J. PEITZMEIER: Beobachtungen über Klimaveränderungen und Bestandsveränderungen einiger Vogelarten in Nordwestdeutschland . . . . .	477
EINARI MERIKALLIO: Der Einfluss der letzten Wärmeperiode (1930—49) auf die Vogelfauna Nordfinnlands . . . . .	484
PEKKA GRENQUIST: On the Recent Fluctuations in Numbers of Waterfowl in the Finnish Archipelago . . . . .	494
GUNNAR SVÄRDSON and SIGFRID DURANGO: Spring Weather and Population Fluctuations . . . . .	497
FINNUR GUDMUNDSSON: The Effects of the Recent Climatic Changes on the Bird Life of Iceland . . . . .	502
FINN SALOMONSEN: The Immigration and Breeding of the Fieldfare ( <i>Turdus pilaris</i> L.) in Greenland . . . . .	515

ILMARI VÄLIKANGAS: The Expansion of the Greenish Warbler ( <i>Phylloscopus trochiloides viridanus</i> Blyth) in the Baltic Area, especially in Finland, towards North and Northwest, and its Causes . . . . .	527
ALFRED O. GROSS: The Herring Gull - Cormorant Control Project . . . . .	532
JOSSELYN VAN TYNE: The Distribution of the Kirtland Warbler ( <i>Dendroica kirtlandii</i> ) . . . . .	537
PER OLOF SWANBERG: Food Storage, Territory and Song in the Thick-billed Nutcracker . . . . .	545
H. R. TUTT: Data on the Excavation of the Nest Hole and Feeding of the Young of Green Woodpecker ( <i>Picus viridis</i> ) . . . . .	555
VIOLET MAXSE: The British Long Tailed Tit ( <i>Ægithalos caudatus roseus</i> ). How its Nest is Built . . . . .	563
E. J. L. HALLSTROM: The black Cockatoo . . . . .	567
H. NOLL: Der Rhythmus in den Brutzeiten einiger schweizerischer Vögel . . . . .	571
A. SCHIFFERLI: Vom Brutvogelbestand eines Hochgebirgswaldes im Wallis . . . . .	574
D. E. SERGEANT: Ecological Relationships of the Guillemots <i>Uria aalge</i> and <i>Uria lomvia</i> . . . . .	578
R. SPÄRCK: The Food of the North-European Gulls . . . . .	588
E. VAN KOERSVELD: Difficulties in stomach analysis . . . . .	592
M. D. F. v. UDVARDY: Heat Resistance in Birds . . . . .	595

### Regional Faunas

E. M. NICHOLSON: Birds of the North Atlantic . . . . .	600
BERNT LÖPPENTHIN: Sea Birds of the Persian Gulf . . . . .	603
PETER SCOTT: Geese in the Canadian Arctic . . . . .	611
ARTHUR A. ALLEN: The Curlew's Secret . . . . .	613
HOLGER HOLGERSEN: On the Birds of Peter I. Island . . . . .	614
YNGVAR HAGEN: Birds of Tristan da Cunha . . . . .	617

### Miscellaneous

ARTHUR A. ALLEN: Progress in Bird Photography and Sound Recording . . . . .	625
ROBERT CUSHMAN MURPHY: The Moa Deposits of Pyramid Valley Swamp, New Zealand . . . . .	628
ADOLF KLEINSCHMIDT: Über eine Rekonstruktion des Schädels von <i>Archaeornis siemensi</i> Dames 1884 im Naturhist. Museum, Braunschweig . . . . .	631
ERNST SUTTER: Growth and Differentiation of the Brain in Nidifugous and Nidicolous Birds . . . . .	636

K. G. WINGSTRAND: The Structures in the Avian Pituitary Responsible for the Transfer of Impulses from the Nervous to the Hormonal System . . . . .	645
ADOLF KLEINSCHMIDT: Das Flugvermögen der seglerartigen Vögel ( <i>Macropterygidae</i> ) . . . . .	647
PETER SCOTT: Researches of the Severn Wildfowl Trust . . . . .	648
GRACE E. BARSTOW MURPHY: Conservation on Ornithological Programs . . . . .	652
RUDOLF KUHK: Zur Mitarbeit nichtfachlicher Kräfte in der Ornithologie . . . . .	656
The Permanent Executive Committee 1950—1954 . . . . .	659
The International Ornithological Committee . . . . .	659
Règlement des Congrès Ornithologiques Internationaux . . . . .	661
