

State of Europe's seas

Contents

Authors and acknowledgements	5
Summary	6
Introduction	9
Part I	
1 Towards ecosystem-based management in Europe's seas	13
1.1 Europe's seas and our interaction with them	13
1.2 The integrated policy approach.....	15
1.3 The Marine Strategy Framework Directive	18
1.4 Understanding ecosystem-based management	18
2 The sea's natural capital	21
2.1 The sea's natural capital and marine ecosystem services	22
2.2 The role of biodiversity in marine ecosystem service generation	26
2.3 Using the sea's natural capital.....	28
Part II	
3 Are our seas healthy?	32
3.1 Introduction	32
3.2 Seabed habitats.....	35
3.3 Water column habitats	37
3.4 Marine invertebrates	39
3.5 Marine fish	41
3.6 Turtles.....	45
3.7 Seabirds and waterbirds	48
3.8 Marine mammals	50
3.9 Marine food webs	52
3.10 Are Europe's seas healthy?	54
4 Clean and undisturbed seas?	58
4.1 Introduction	58
4.2 Physical loss and damage affect seafloor integrity.....	60
4.3 Extraction of fish and shellfish	65
4.4 Introduction of non-indigenous species	68
4.5 Eutrophication	72
4.6 Contamination.....	79
4.7 Marine litter	83

4.8	Underwater noise and other forms of energy input	86
4.9	Marine climate change	89
4.10	Are our seas clean and undisturbed?	93
5	Productive seas.....	95
5.1	Introduction	95
5.2	Land-based activities	99
5.3	Extraction of living resources	101
5.4	Production of living resources	104
5.5	Extraction of non-living resources and disposal of waste.....	106
5.6	Transport and shipbuilding	108
5.7	Tourism and recreation	111
5.8	Man-made structures	113
5.9	Energy production — offshore renewables	115
5.10	Energy production — oil and gas	117
5.11	Research and surveys	119
5.12	Military	120
5.13	Are our seas productive?.....	122
6	The EU policy response	123
6.1	Setting the scene	123
6.2	Eutrophication — breaking the trends	124
6.3	Marine protected areas — an example of successful EU policy?.....	125
6.4	The long-term challenge of achieving sustainable fisheries in the EU	128
6.5	EU's marine knowledge	131
6.6	What we have learned from EU marine policy implementation	133
6.7	Finding long-term sustainable solutions — ecosystem-based management?	135
Part III		
7	Assessing marine ecosystem services to better manage our use of the sea's natural capital	139
7.1	About this chapter.....	140
7.2	Framing marine ecosystem services.....	141
7.3	An EU-level assessment of marine ecosystem potential to deliver services	147
7.4	How can we improve EU-level assessment of marine ecosystem services?.....	156
7.5	Using knowledge on marine ecosystem service assessment across the EU to support EU-level initiatives	168
7.6	Valuing marine ecosystem services	173
7.7	The MSFD's 'cost of degradation' analysis	178
7.8	What does the assessment of marine ecosystem services at the EU level tell us about the way we use the natural capital of Europe's seas?.....	183
8	Our seas, our future.....	188
8.1	State and outlook for healthy, clean, undisturbed and productive seas	188
8.2	The transition towards sustainable use of our seas and the key role of ecosystem-based management.....	191
