

# GOING AMISS IN EXPERIMENTAL RESEARCH

*by*

GIORA HON  
*University of Haifa, Israel*

JUTTA SCHICKORE  
*Indiana University, USA*

FRIEDRICH STEINLE  
*Wuppertal University, Germany*

# Contents

<b>Introduction: Mapping “Going Amiss”</b> .....	1
Giora Hon, Jutta Schickore and Friedrich Steinle	

## **PART I ERROR AS AN OBJECT OF STUDY**

<b>Error: The Long Neglect, the One-Sided View, and a Typology</b> .....	11
Giora Hon	

<b>Error as Historiographical Challenge: The Infamous Globule Hypothesis</b> ...	27
Jutta Schickore	

## **PART II LEARNING FROM ERROR**

<b>Learning Without Error</b> .....	49
Erez Braun and Shimon Marom	

<b>Living Extremely Flat: The Life of an Automaton; John von Neumann’s Conception of Error of (in)Animate Systems</b> .....	55
Giora Hon	

## **PART III CONCEPTS AND DEAD ENDS**

<b>Experimental Reorientations</b> .....	75
Hans-Jörg Rheinberger	

<b>Concepts from the Bench: Hans Krebs, Kurt Henseleit and the Urea Cycle</b> .	91
Kärin Nickelsen and Gerd Graßhoff	

<b>How Experiments Make Concepts Fail: Faraday and Magnetic Curves</b> ....	119
Friedrich Steinle	

<b>A Pioneer Who Never Got It Right: James Dewar and the Elusive Phenomena of Cold</b> .....	137
Kostas Gavroglu	

**PART IV: INSTRUMENTAL ARTIFACTS****Distinguishing Real Results from Instrumental Artifacts:****The Case of the Missing Rain** ..... 161

Wendy Parker

**Going Right and Making It Wrong: The Reception of Fizeau's****Ether-Drift Experiment of 1859**..... 179

Jan Frercks

**The Spectrum of  $\beta$  Decay: Continuous or Discrete? A Variety****of Errors in Experimental Investigation**..... 211

Allan Franklin

**PART V SURPRISE AND PUZZLEMENT****The Scent of Filth: Experiments, Waste, and the Set-Up**..... 239

Christoph Hoffmann

**In the Thick of Organic Matter** ..... 253

Ursula Klein

**Epilogue**..... 273

Giora Hon, Jutta Schickore, and Friedrich Steinle
