

Thomas Allweyer

BPMN 2.0

Introduction
to the Standard for
Business Process

Contents

1	BPMN -A Standard for Business Process Modeling.....	9
1.1	Why a Notation?.....	9
1.2	Development of BPMN.....	10
1.3	Innovations of BPMN 2.0.....	11
1.4	Business Models and Executable Models.....	13
1.5	About this Book.....	15
2	BPMN by Example.....	16
2.1	A First BPMN Model.....	16
2.2	BPMN Constructs Used.....	16
2.3	Sequence Flow Logic.....	18
2.4	Presentation Options.....	20
2.5	Appending Additional Information.....	23
3	Gateways: Splits and Merges.....	24
3.1	Exklusive Gateway.....	24
3.2	Parallel Gateway.....	27
3.3	Different Process Instances at a Parallel Join.....	28
3.4	Inclusive Gateway.....	30
3.5	Complex Gateway.....	34
4	Splitting and Merging without Gateways.....	36
4.1	Splitting without Gateways.....	36
4.2	Merging without Gateways.....	39
4.3	Modeling with or without Gateways?.....	42
5	Collaborations.....	46
5.1	Example of a Collaboration.....	46
5.2	Modeling Message Flows.....	48
5.3	Message Flows to Pools without Displayed Processes.....	50
5.4	Private and Public Processes.....	53
5.5	Multi-Instance Participants.....	54
5.6	Use of Collaborations and Sequence Flows.....	55

5.7	Modeling of Message Content.....	57
6	Events.....	58
6.1	Example for the Use of Events.....	59
6.2	Start Events.....	62
6.3	End Events.....	68
6.4	Intermediate Events.....	71
6.5	Event-Based Decisions.....	76
7	Activities.....	79
7.1	Sub-Processes.....	79
7.2	Loops and Multi-Instance Activities.....	85
7.3	Ad-hoc Sub-Processes.....	89
7.4	Types of Tasks.....	90
7.5	Call of Processes and Global Tasks'.....	91
7.6	Examples of Sub-Processes and Called Processes.....	95
8	Handling of Exceptions.....	99
8.1	Interrupting Intermediate Events.....	99
8.2	Non-Interrupting Intermediate Events.....	101
8.3	Handling of Errors.....	103
8.4	Escalation Events.....	106
8.5	Event Sub-Processes.....	109
9	Transactions and Compensations.....	113
9.1	Modeling of Transactions.....	113
9.2	Direct Call of Compensations.....	118
9.3	Event Sub-Processes for Compensations.....	119
9.4	Use of Exceptions, Transactions and Compensations.....	121
10	Data Objects in Processes.....	122
10.1	Modeling Data Flow.....	122
10.2	Multiple Data Objects.....	124
10.3	Data and Events.....	124
10.4	Data Store.....	125
10.5	Passing Data to Called Activities.....	125
10.6	Use of Data Objects.....	127

11	Choreographies.....	128
11.1	Choreography Diagrams.....	130
11.2	Choreography within Collaboration.....	132
11.3	Choreography Sub-Processes.....	133
11.4	Gateways in Choreographies.....	135
11.5	Events in Choreographies....."	135
11.6	Calling Choreographies and Global Choreography Tasks.....	136
11.7	Use of Choreographies and Collaborations.....	137
12	Conversations.....	138
12.1	Conversation Diagram.....	138
12.2	Message Correlation.....	138
12.3	Hierarchies of Conversations.....	139
12.4	Calling Global Communications and Conversations.....	141
12.5	Use of Conversation Diagrams.....	141
13	Artifacts and Extensions of BPMN.....	142
13.1	Artifacts.....	142
13.2	Ways of Extending BPMN.....	143
A	Bibliography.....	145
B	BPMN in the Internet.....	147
	Index.....	149
