4.9 Social benefit and financial equilibrium	78
Things to remember	80

5	Economic valuation of non-marketed goods (I)	82
5.1	Introduction	82
5.2	The economic valuation of non-marketed goods	83
5.3	Willingness to pay and willingness to accept	86
5.4	Valuation through revealed preferences	90
	Things to remember	95
6	Economic valuation of non-marketed goods (II)	97
6.1	Introduction	97
6.2	Valuation through stated preferences: the contingent valuation method	98
6.3	Conjoint analysis	105
6.4	Individual preferences and social welfare	108
6.5	The value of life	110
6.6	Benefits transfer	115
	Things to remember	117
7	Discounting and decision criteria (I)	119
7.1	Introduction	119
7.2	Discounting the future	120
7.3	The mechanics of discounting: some useful formulas	125
7.4	Decision criteria: the net present value	129
	Things to remember	133
8	Discounting and decision criteria (II)	135
8.1	Introduction	135
8.2	Decision criteria: different lifespans and optimal timing	136
8.3	The marginal rate of time preference and the marginal productivity of capital	142
8.4	The social rate of discount and the rate of interest	144
8.5	Intergenerational discount	147
	Things to remember	150
9	Uncertainty and risk analysis	152
9.1	Introduction	152
9.2	Risk in a private project	154
9.3	Risk in the public sector	158
9.4	Risk analysis	161
9.5	Interpreting the results of risk analysis	167
	Things to remember	175
10	Applications	177
10.1	Introduction	177
10.2	Investment projects: economic evaluation of infrastructure	178
10.3	Cost–benefit analysis of high speed rail: an illustration	182
10.4	Policy evaluation: cost–benefit analysis of privatization	187

10.5	Cost–benefit analysis of the concession of a residential water supply	193
10.6	Institutional design, contracts and economic evaluation	198
	Things to remember	208
11	Microeconomic foundations of cost–benefit analysis	211
11.1	Introduction	211
11.2	From individual utility to social welfare	211
11.3	Measurement of producer surplus	216
11.4	Compensating variation, equivalent variation and consumer surplus	223
11.5	Uncertainty	233
