# Contents

Preface xi

Acknowledgments xiii

## 1. INTRODUCTION 1

**For What Should Scientific Knowledge Be Useful?** 2

Typologies 2 • Prediction and Explanation 3 •

Sense of Understanding 5 • Control 7

**Theory** 8

**How Does a Concept or Statement Become Part of a  
Scientific Body of Knowledge?** 10

**Desirable Characteristics of Scientific Knowledge** 12

Abstractness 12 • Intersubjectivity (Meaning) 14 •

Intersubjectivity (Logical Rigor) 14 • Empirical

Relevance 16

**Summary and Conclusion** 17

## 2. THE IDEA 19

**Kuhn Paradigms** 20

*Example:* Freud's Theory of Personality 22

**Paradigms** 25

*Examples:* Heider's Balance Theory 26 • Two Conceptions  
of Status Structures: Elitist and Pluralistic 28

**Paradigm Variations 32**

*Examples: Variations on the Freudian Conception of Personality 32 • Variations on Heider's Balance Theory 35*

**Identifying Paradigms 42**

**Conclusion 43**

**3. CONCEPTS 45**

**Definition of Concepts 46**

**Abstract vs. Concrete Concepts 49**

**Concept Measurement 52**

**Quantification of Concepts 57** The Nominal Level 58 • The Ordinal Level 59 • The Interval Level 60 • The Ratio Level 62 • General Comments on Quantification 63

**Summary and Conclusion 65**

**4. STATEMENTS 67**

**Existence Statements 67**

**Relational Statements 69** Associational Statements 70 • Causal Statements 71 • Deterministic and Probabilistic Statements 74

**Levels of Abstraction 76**

**Theoretical Statements 77**

**Relation of Theoretical Statements to Theory 78**

**Relationship between Theoretical Statements and Empirical Data 80**

**Summary 82**

**5. FORMS OF THEORIES 83****The Set-of-Laws Form 83**

*Examples:* The Iron Law of Oligarchy 84 • The Laws of Operant Behavior 85 • The Exercise of Influence in Small Groups 88

**The Axiomatic Form 93**

*Example:* The Exercise of Influence in Small Groups 94

**The Causal Process Form 98**

*Examples:* The Effect of First Impressions on Cognitions 99 • Creation of Oligarchies 100 • Operant Behavior, Law II 102 • The Exercise of Influence in Small Groups 104 • Status Incongruence and Mental Health 105

**Evaluation of the Three Forms of Theory 109****Simulation or Model Building 113****Summary 116****6. TESTING THEORIES 117****Abstract Statements and Concrete Research 117****Empirical Research and Confidence in Abstract Statements 119****Statistical Decision Procedures 122**

Classical Statistical Inference 123 • Should the Hypothesis Be Presented before the Data Are Examined? 130

**Changing Confidence in Theories 132****Comparing Theories 134****Conclusion 139**

**7. STRATEGIES FOR DEVELOPING A  
SCIENTIFIC BODY OF KNOWLEDGE 141**

- Research-Then-Theory 142**
- Theory-Then-Research 146**
- Comparison of Strategies 148**
- How to Get a New Idea 154**
- Composite Approach 156**
- Research Methods 159**
- Conclusion 161**

**8. CONCLUSION 163**

- Potential for a *Social Science* 165**

**APPENDIX: STUDENT EXERCISES 171**

- Comments 171**

**Assignment I:** Empirical Generalization and  
Empirical Support 172

**Assignment II:** Explanation of an Empirical  
Generalization 173

**Assignment III:** Testing a Theory 174

**Assignment IV:** Application of Theories to  
Natural Phenomena 175

- References 177**

**Author Index 183**

**Subject Index 185**
