A BALKEMA BOOK

Table of contents

Foreword IX
S. Chaudhry & C. Meller

Concepts in Enterprise Information Systems

Enterprise systems reconceptualized from a coordination perspective 3
L. Taxen

A comparison of practitioner and researcher definitions of enterprise architecture using an interpretation method 11
J. Mentz, P. Kotze & A. van der Merwe

Conceptual model of the impact of enterprise information systems innovation on sustainability 27
J. Basl, A. Buchalcevova & L. Gala

Significance of trust in reputation building mechanisms 35
R. Delina, F. Janke & M. Tkac

Critical success factors for ERP system implementation projects: A literature review 45
C. *Leyh*

The role of BPM in the IT value-chain: Exploring how managing business processes can decouple business and IT 57
C. *Meller*

Enforcing control in the run-time business transactions 69
S. Guerreiro, A. Vasconcelos & J. Tribolet

Cases in Enterprise Information Systems

Case of development of a small business ERP consultant knowledge base 81
D.L. Olson, V.Van Huy & N.M. Tuan

Deliberately by design, or? Enterprise Architecture transformation at Aria Foods 91
C. Meller, C.J. Brandt & A. Carugati

Information waste: Qualitative study in manufacturing enterprises 105
H. Franssila

Towards a toolbox for a process innovation laboratory – A case study of process innovation at Genpact 111
J. Gong & C. Meller

Sustainability management within selected large-scale enterprises in Germany 125
C. Leyh, A. Krischke & S. Strahringer

Business Process Management

Using DEMO to analyse the consistency of business process models 133
A. Caetano, A. Assis & J. Tribolet

Using an organizational taxonomy to support business process design 147
C.M. Pereira, A. Caetano & P. Sousa

BPMN usage: An analysis of influencing factors 155
F. Sedick & L.F. Seymour

Business language driven development: Joining business process models to automated tests 167
R.A. Carvalho, F.L.C. Silva & R.S. Manhaes

The influence of human capabilities in effort estimation of business processes modeling projects 179
J.R. Dutra, M.O. Barros, F.M. Santoro, A.M. Magdaleno, C. Cappelli, V Nunes & F. Klussman

Designing Enterprise Information Systems

Design science research in enterprise information systems: Proceedings of the CONFENIS 2011 workshop 191
A. Efeoglu, J. Gong, J.M. Kristoffersen, S. Juul, R. Winter, L. Pries-Heje & C. Metier

A framework for a meta-design artefact on design science methodology 205
L. Ostrowski & M. Helfert

Business intelligence in corporate information system: Integral approach 211
A.M. Shamsieva & V.U. Arkov

EIS based on business rules in oil transportation industry with situational analysis implementation 215
I. Moskovoy

Designing enterprise information systems using scrum for governance 221
L. Pries-Heje & J. Pries-Heje

Enterprise Information Systems in various domains

IT adaptation in relation to data management in small, medium-sized and large companies 233
A. Haug & J. Schlichter

Customer demand oriented EAI framework design and its application in telecom industry 241
J. Qi, W.Long & Y.WU

Empirical study of the profiles of accountants working in a public administration and using an integrated financial system (ERP) 257
C.E. Balzli

IS technologies constraining and enabling powers in budgeting 277
W. Uppatumwichian

Are Enterprise System benefits the same for Universities as they are for supermarkets? 291
J. Leonard & H.Z. Henriksen

Global issues of Enterprise Information Systems

Competitiveness of Czech ICT graduates 305
P. Doucek, O. Novotny, M. Maryska & L. Nedomova

International transfer of manufacturing – a product eligibility framework 319
C.L. Petersen, A.-K.E. Langkjcer, R.T. Larsen & J.M. Kristoffersen

Surviving in the global producer-driven commodity chain 331
D.R. Christensen, K.H. Hansen, J. UlrikPaludan, S.K. Paulsen, S.S. Peters & M.M. Thomsen

Impact of ERP systems implementation on SMEs in Slovakia and Slovenia 341
F. Sudzina, A. Pucihar & G. Lenart

Knowledge transfer – interrelations of job complexity, maturity of recipient, and knowledge types 351
S. Andersen, N. Hardahl, D. Hvid, S. Juul & K. Prabakaran

Emerging topics in Enterprise Information Systems

Optimistic integration of Enterprise Information Systems 363
J. Kokemiiller

An evaluation of heuristic methods for grid scheduling problem 381
S.M. Hashemi & A.K. Bardsiri

Cloud ERP implementation challenges: A study based on ERP life cycle model 389
U. Iqbal, E. Uppstrom & G. Juell-Skielse

Cloud ERP development process model from the perspective of user organizations 407
K Hao, G. Juell-Skielse & E. Uppstrom

Cloud enterprise resource planning adoption: Motives & barriers 429
I. Saeed, G. Juell-Skielse & E. Uppstrom

Fitting enterprise systems to organizational roles: A customer perspective 435
P. Hoist

Author index 447
