Detailed Contents

Preface xvii
Acknowledgments xix
About the Authors xxi

Chapter 1 • Introduction to Cognitive Psychology
Introduction: Cognition and Shopping 6
What Is Cognitive Psychology?
   Development of Cognitive Psychology 7
   Current Approaches to the Study of Cognition
      Representationalism
      Embodied Cognition
      Biological Perspective 6
Research in Cognitive Psychology 7
The Scientific Method 8
Research Methodologies
   Case Studies 8
   Correlational Studies 9
   Experimental Studies 10
Commonly Used Measures Within Cognitive Psychology
   Accuracy 12
   Response Time 13
   Beyond Accuracy and Response Time 14
Thinking About Research 15
Chapter Review
   Summary 16
   Chapter Quiz 17
   Key Terms 18
   Stop and Think Answers 18

Chapter 2 • Cognitive Neuroscience 21
Introduction: Knowledge From Cognitive Deficits 22
Clinical Case Studies in Cognitive Neuroscience 22
Structure of the Nervous System 25
   The Neuron 25
   The Brain 27
Measures in Cognitive Neuroscience 28
   Single-Cell Recording 29
   Electroencephalography (EEG) 29
Chapter 3 • Perception

Introduction: Perception in Everyday Tasks
Sensory Systems: How Sensations Become Perceptions
Approaches to the Study of Perception
  Computational Approaches
    Ponzo Illusion Activity
    Visual Perspective Illusion Activity
    Top-Down Processing Activity
Gestalt Approaches
  Triangle and Circle Activity
  Similarity Activity
  Proximity Activity
  Principle of Pragnanz Activity
  What Do You See Activity
  Figure Ground Activity
  Configured Superiority Activity
Perception/Action Approaches
  Walking Through a Room Activity
Comparison of Approaches to Perception: Motion Perception

* Thinking About Research

Chapter Review
Summary
Chapter Quiz
Key Terms
Stop and Think Answers

Chapter Review
Summary
Chapter Quiz
Key Terms
Stop and Think Answers

Magnetencephalography (MEG) 31
Electrical Stimulation/Inhibition of Neurons 31
Brain Imaging Techniques 32
  Magnetic Resonance Imaging (MRI) 32
  Positron Emission Tomography (PET) 32
  Functional Magnetic Resonance Imaging (fMRI) 32
Recording Activity in the Living Brain 33
Can All Mental Processes Be Explained in Terms of Brain Activity? 36
Thinking About Research 37

Chapter 3 • Perception 43

Introduction: Perception in Everyday Tasks 44
Sensory Systems: How Sensations Become Perceptions 44
Approaches to the Study of Perception 46
  Computational Approaches 46
    Ponzo Illusion Activity 49
    Visual Perspective Illusion Activity 49
    Top-Down Processing Activity 49
Gestalt Approaches 50
  Triangle and Circle Activity 50
  Similarity Activity 51
  Proximity Activity 51
  Principle of Pragnanz Activity 52
  What Do You See Activity 53
  Figure Ground Activity 53
  Configured Superiority Activity 53
Perception/Action Approaches 54
  Walking Through a Room Activity 55
Comparison of Approaches to Perception: Motion Perception 60

* Thinking About Research 62

Chapter Review 64
Summary 64
Chapter Quiz 65
Key Terms 65
Stop and Think Answers 65
Chapter 4 • Attention

Introduction: How We Pay Attention

Views of Attention
  Attention as an Information Filter
  Attention as a Limited Resource
  Attention as a Spotlight
  Attention as a Mental Capacity
  Attention as a Feature Binder
  Visual Search Activity

How Attention Affects Our Perceptions
  The Gorilla in the Room: Inattentional Blindness
    Asking Directions Activity
    Noticing Changes Activity
  Incompatibilities Tax Attention: The Simon Effect
    Simon Effect Activity
  Effects of Automatic Processes on Attention: The Stroop Task
    Stroop Effect Activity

Automatic and Controlled Processing: A Cognitive Dichotomy

Thinking About Research

Chapter Review
  Summary
  Chapter Quiz
  Key Terms
  Stop and Think Answers

Chapter 5 • Memory Structures and Processes

Introduction: The Pervasiveness of Memory

Memory as Structure or Process
  Encoding, Storage, and Retrieval
  Modal Model of Memory

Sensory Memory

Short-Term Memory (STM)
  Memory Span Activity
  Capacity of STM
  Duration of STM

Long-Term Memory (LTM)
  Types of LTM Memories

The Working-Memory (WM) System
  Baddeley’s Model
    Visuospatial Sketchpad
    Phonological Loop
Chapter 6 • Long-Term Memory: Influences on Retrieval

Introduction: Superior Memory

Why We Forget

Encoding Effects

Levels of Processing

Spacing Effects

Serial Position Curve

Retrieval Effects

The Testing Effect

Using the Testing Effect

Encoding-Retrieval Interactions

Environmental Context Effects

Mood-Dependent Effects

Transfer-Appropriate Processing

Summary of Encoding-Retrieval Interactions

Mnemonics

Image Mnemonic Activity

Method of Loci Activity

Superior Autobiographical Memory

Thinking About Research

Chapter Review

Summary

Chapter Quiz
# Chapter 7 • Memory Errors

**Introduction: The Inaccuracy of Memory**

The Seven "Sins" of Memory
- Error #1 Transience
- Error #2 Absentmindedness
- Error #3 Blocking
- Error #4 Source Misattribution
- Error #5 Suggestibility
- Error #6 Bias
- Error #7 Persistence

**Summary**

The Reconstructive Nature of Memory
- Bartlett's Studies
  - *Identify the Task Activity*
- Schemata and Scripts

Memory Errors in the Laboratory
- The DRM Procedure
  - *False Memory Activity*
- Eyewitness Memory Studies
  - Applications of Eyewitness Memory Research
  - Summary and Conclusions

Clinical Memory Failures—Amnesia
- Types of Amnesia
  - Amnesia and Implicit Memory
  - Amnesia in Alzheimer's Disease
  - Amnesia in Childhood

**Thinking About Research**

Chapter Review
- Summary
  - Chapter Quiz
  - Key Terms
  - Stop and Think Answers

# Chapter 8 • Imagery

**Introduction: Visual Imagery in Everyday Life**

- Mental Images and Cognition

The Debate on Propositional and Spatial Representations

Imagery and Memory
  - *Imagery and Memory Activity*
Chapter 9 • Language

Introduction: A Simple Conversation

What Is Language?

Structure of Language

Language Form: Phonology and Orthography

Morphology: Language Interface of Form, Syntax, and Semantics

Syntax (Grammar)

Semantics (Meaning)

Pragmatics (Using Language)

Listening for Nonliteral Meaning Activity

How Do We Process Language?

Language Comprehension

Listening for Ambiguity Activity

Language Perception

Using Top-Down Information Activity

Lexical Recognition and Access

Interpreting Sentences: Syntactic Analysis

Interpreting Syntax Activity

Beyond the Sentence: Texts and Discourse

Language Production

Making Mistakes: Speech Errors
Chapter 11 • Problem Solving

Introduction: Problem Solving in Daily Life

Recognizing and Identifying a Problem

Defining and Representing Problems

- Moving Pennies Activity
- Dominos and a Chessboard Activity

Functional Fixedness

- Two Strings Problem Activity

Developing Solutions to Problems: Approaches and Strategies

- Sudoku Activity
- Associationist Approach: Trial-and-Error Strategy
- Gestalt Approaches
  - Insight
  - 9-Dot Problem Activity
  - Mental Set
- Cups and Water Problem Activity
- Analogical Transfer
- Radiation Problem Activity

Summary

Problem Solving as Problem Space Searches

- Means-Ends Strategy
- Hill-Climbing Strategy
- Working-Backward Strategy

Summary of Approaches and Strategies

Allocating Mental Resources for Solving the Problem

- Matchstick Math Activity

Expertise

- Experts Versus Novices
  - Perception and Attention
  - Memory
- Better Strategies

Becoming a Better Problem Solver
Chapter 12 • Reasoning and Decision Making

Introduction: A Night at the Movies

Deductive Reasoning

Syllogistic Reasoning

Conditional Reasoning

Conditional Arguments Activity
Wason 4-Card Task Activity
Adapted Wason 4-Card Task Activity

Deductive-Reasoning Approaches

Conclusion Interpretation Approaches
Representation-Explanation Approaches
Surface Approaches

Combining These Approaches: Dual-Process Framework Approach

Inductive Reasoning

Types of Inductive Reasoning

Analogical Reasoning
Category Induction
Causal Reasoning
Hypothesis Testing
Hypothesis Testing Activity
Counter/actual Thinking

Everyday Reasoning

Making Decisions

A General Model of Decision Making

Ideal Decision Making: A Normative Model

Heuristics and Biases

Representativeness Bias
Tom’s Job Activity
Availability Bias

Framing Bias

Descriptive Decision-Making Approaches

Prospect Theory

Dual-Process Framework

Future Advances in Theories of Reasoning and Decision Making

Thinking About Research

Chapter Review

Summary
