# CONTENTS

List of figures and tables	x
About the author	xii
Preface	xiii
Acknowledgements	xv
<b>1 THE DESIGN OF PLANNING RESEARCH</b>	<b>1</b>
Key questions	1
Key concepts	1
Overview	1
Research design	2
Types of research design	3
Structure of the book	5
Summary/key lessons	9
Exercise	10
Further reading	11
References	11
<b>2 POST-POSITIVISM AND PLANNING RESEARCH</b>	<b>13</b>
Key questions	13
Key concepts	13
Overview	13
A popular conception of science	15
Post-positivism	16
Box 2.1 Values and the research process	16
Hidden assumptions in research: The iceberg model	23
Conclusions	32
Summary/key lessons	33
Exercise	34
Further reading	34
References	34

<b>3</b>	<b>POUCY ISSUES AND RESEARCH QUESTIONS</b>	<b>37</b>
	Key questions	37
	Key concepts	37
	Overview	37
	What sort of discipline is planning?	38
	What arguments are used in planning policy debates?	39
	Box 3.1 Types of research question	43
	Research questions	43
	Generating research questions: reviewing the literature	46
	How to recognise research questions in published research	47
	Research questions, hypotheses and theories	50
	Creating helpful research questions from initial ideas	51
	Conclusion	56
	Summary/key lessons	57
	Exercise	58
	Further reading	58
	References	59
<b>4</b>	<b>A JUSTIFICATION FOR YOUR RESEARCH QUESTION</b>	<b>61</b>
	Key questions	61
	Key concepts	61
	Overview	61
	Practical justifications for further research: Two examples	62
	Reviews of literature: Justifying research in academic terms	64
	Box 4.1 Arguments typically developed by researchers to justify further research	66
	The structure of a literature review	68
	Box 4.2 Example of a short literature review	69
	Summary/key lessons	71
	Exercise	71
	Further reading	73
	References	73
<b>5</b>	<b>DESCRIPTIVE QUESTIONS: SCOPE, CLAIMS AND SAMPLING</b>	<b>75</b>
	Key questions	75
	Key concepts	75
	Overview	75

Scoping research questions	76
Box 5.1 Scoping your research questions	77
Sampling: data sources and methods	79
Sampling and the selection of cases to study	80
Sampling methods	84
Box 5.2 Example – Quota sampling as used by Burgess et al. (1988)	89
Summary/key lessons	92
Exercise	92
Further reading	93
References	93
<b>6 EXPLANATORY QUESTIONS: STARTING POINTS, CLAIMS AND SAMPLING</b>	<b>95</b>
Key questions	95
Key concepts	95
Overview	95
Starting points	96
Causal explanation or understanding?	98
Box 6.1 Criteria for assessing the existence of a causal relationship	101
Sampling and the selection of cases to study	107
Box 6.2 Example – Theoretical sampling in a study	113
Case studies	116
Summary/key lessons	116
Exercise	118
Further reading	119
References	120
<b>7 METHODS OF DATA GENERATION IN RESEARCH</b>	<b>123</b>
Key questions	123
Key concepts	123
Overview	123
Key issues in the choice of methods	124
Interviews and questionnaires	127
Ethnography and Observation	131
Documents	136
Official Statistics	140
Summary/key lessons	144

Exercise	144
Further reading	145
References	146
<b>8 DATA ANALYSIS</b>	<b>149</b>
Key questions	149
Key concepts	149
Overview	149
Qualitative and quantitative data	151
Quantitative analysis of survey data	152
Box 8.1 Statistical significance of Table 8.3 from Atkinson and Kintrea (2001)	160
Qualitative analysis	163
Box 8.2 Example of discourse analysis	171
Summary/key lessons	174
Exercise	174
Further reading	175
References	176
<b>9 ETHICS OF RESEARCH</b>	<b>178</b>
Key questions	178
Key concepts	178
Overview	178
The framing of research	179
How close should the relationship between academic researchers and practice be?	180
The generation and analysis of data	187
Summary/key lessons	188
Exercise	189
Further reading	190
References	190
<b>10 CROSS-NATIONAL COMPARATIVE RESEARCH IN URBAN PLANNING</b>	<b>192</b>
Key questions	192
Key concepts	192
Overview	192
What is cross-national comparative research in planning?	193

Research purposes and research questions	195
A justification of the question	198
An appropriate logic for answering the question	198
Methods of data generation	201
Analysis	204
Ethics	206
Summary/key lessons	206
Further reading	207
References	208
<b>11 CONCLUSION</b>	<b>211</b>
<b>Index</b>	<b>215</b>
