

Towards a Process of Making

Erasmus Intensive Programs "Tectonics in Building Culture" & "Structures in Building Culture" 2007-2014

Revealing, cultivating and transforming European building culture 7

*Urs Meister, Carmen Rist*

Didactic concepts within teaching architecture in one to one scale – two cases 11

*F. Hakonsen, M. Waagaard, A. Gilberg and J. Siem*

Listening to the material. An intuitive approach to the knowledge of construction materials 21

*Raimon Farre Moreto*

Material, structure, tectonics: the power of full scale in the education of architects 33

*Urs Meister, Carmen Rist*

Constructing things for constructing other things 47

*Thierry Berlemont*

Learning at the scale of "real life" – New pedagogical ideas for teaching architecture 63

*Machiel Spaan*

Building culture written into the landscape – How to read spatial tradition 81

*Justyna Borucka*
