

MACROECONOMICS

N. GREGORY MANKIW
AND MARK P. TAYLOR

FOURTH EDITION

BRIEF CONTENTS

About the authors vii
Preface viii
Acknowledgements x
Macroeconomics prologue xi

PART 1 Introduction to economics 1

- 1 What is economics? 1
- 2 Thinking like an economist 15
- 3 The market forces of supply and demand 30

PART 2 The data of macroeconomics 55

- 4 Measuring a nation's well-being 55
- 5 Measuring the cost of living 75

PART 3 The real economy in the long run 91

- 6 Production and growth 91
- 7 Unemployment 116

PART 4 Interest rates, money and prices in the long run 139

- 8 Saving, investment and the financial system 139
- 9 The basic tools of finance 159
- 10 Issues in financial markets 173
- 11 The monetary system 193
- 12 Money growth and inflation 211

PART 5 The macroeconomics of open economies 231

- 13 Open-economy macroeconomics: Basic concepts 231
- 14 A macroeconomic theory of the open economy 245

PART 6 Short-run economic fluctuations 261

- 15 Business cycles 261
- 16 Keynesian economics and IS–LM analysis 280
- 17 Aggregate demand and aggregate supply 304
- 18 The influence of monetary and fiscal policy on aggregate demand 325
- 19 The short-run trade-off between inflation and unemployment 342
- 20 Supply-side policies 370

PART 7 International macroeconomics 385

- 21 Common currency areas and European Monetary Union 385
- 22 The Financial Crisis and sovereign debt 405

Macroeconomics prologue	xi
A world before markets	xi
Classical economics	xii
Marxist economics	xiii
The Austrian school	xiii
Keynesianism	xiv
Monetarism	xiv
Feminist economics	xv

PART 1 INTRODUCTION TO ECONOMICS

1 What is economics?	1
The economy and economic systems	1
How people make decisions	3
How people interact	5
How the economy as a whole works	8
2 Thinking like an economist	15
Introduction	15
The economist as scientist	17
The economist as policy advisor	23
Why economists disagree	24
3 The market forces of supply and demand	30
The assumptions of the market model	30
Demand	32
Shifts versus movements along the demand curve	35
Supply	37
Supply and demand together	41
Conclusion: How prices allocate resources	49

PART 2 THE DATA OF MACROECONOMICS 67

4 Measuring a nation's well-being	55
The economy's income and expenditure	56
The measurement of gross domestic product	57
The components of GDP	60
Real versus nominal GDP	63
The limitations of GDP as a measure of well-being	68
International differences in GDP and the quality of life	70
Conclusion	71
5 Measuring the cost of living	75
The Consumer Prices Index	75
Correcting economic variables for the effects of inflation	82
Conclusion	86

PART 3 THE REAL ECONOMY IN THE LONG RUN 97

6 Production and growth	91
Economic growth around the world	91
Growth theory	95
Productivity	95
The determinants of economic growth	98
Causes of growth	101
Endogenous growth theory	105
Economic growth and public policy	106
Conclusion: The importance of long-run growth	111

7 Unemployment 116

- Identifying unemployment 116
- The causes of unemployment 119
- The natural rate of unemployment 125
- Marx and the reserve army of the unemployed 131
- The cost of unemployment 132
- Conclusion 134

**PART 4
INTEREST RATES, MONEY AND
PRICES IN THE LONG RUN** 137**8 Saving, investment and the financial system** 139

- Financial institutions in the economy 140
- Saving and investment in the national income accounts 147
- The market for loanable funds 150
- Conclusion 155

9 The basic tools of finance 159

- Present value: Measuring the time value of money 159
- Managing risk 161
- Asset valuation 168
- Conclusion 169

10 Issues in financial markets 173

- The causes of the crisis 173
- The efficient markets hypothesis 181
- Summary 189

11 The monetary system 193

- The meaning of money 193
- The role of central banks 199
- The European Central Bank and the Eurosystem 200
- The Bank of England 201
- Banks and the money supply 201
- The central bank's tools of monetary control 205

12 Money growth and inflation 211

- What is inflation? 211
- The classical theory of inflation 212
- The costs of inflation 220
- Deflation 225
- Conclusion 225

**PART 5
THE MACROECONOMICS OF OPEN
ECONOMIES** 231**13 Open-economy macroeconomics: Basic concepts** 231

- The international flows of goods and capital 231
- The prices for international transactions: Real and nominal exchange rates 235
- A first theory of exchange rate determination: Purchasing power parity 239
- Conclusion 242

14 A macroeconomic theory of the open economy 245

- Supply and demand for loanable funds and for foreign currency exchange 245
- Equilibrium in the open economy 248
- How policies and events affect an open economy 250
- Conclusion 256

**PART 6
SHORT-RUN ECONOMIC
FLUCTUATIONS****15 Business cycles** 261

- Trend growth rates 262
- Causes of changes in the business cycle 268
- Business cycle models 270
- Macroeconomic models of the economy 274
- Conclusion 276

16 Keynesian economics and IS-LM analysis 280

- The Keynesian cross 280
- The multiplier effect 284
- The IS and LM curves 290
- General equilibrium using the IS-LM model 292
- From IS-LM to aggregate demand 294
- Conclusion 300

17 Aggregate demand and aggregate supply 304

- Three key facts about economic fluctuations 304
- Explaining short-run economic fluctuations 305

The aggregate demand curve 307
The aggregate supply curve 309
Two causes of economic fluctuations 315
New Keynesian economics 319
Conclusion 320

18 The influence of monetary and fiscal policy on aggregate demand 325

How monetary policy influences aggregate demand 325
How fiscal policy influences aggregate demand 332
Using policy to stabilize the economy 335
Conclusion 338

19 The short-run trade-off between inflation and unemployment 342

The Phillips curve 343
Shifts in the Phillips curve: The role of expectations 346
The long-run vertical Phillips curve as an argument for central bank independence 352
Shifts in the Phillips curve: The role of supply shocks 353
The cost of reducing inflation 354
Inflation targeting 360
Reflecting on the Phillips curve 364
Conclusion 365

20 Supply-side policies 370

Shifts in the aggregate supply curve 370
Types of supply-side policies 374
Conclusion 381

**PART 7
INTERNATIONAL
MACROECONOMICS**

21 Common currency areas and European Monetary Union 385

The euro 385
The single european market and the euro 386
The benefits and costs of a common currency 388
The theory of optimum currency areas 390
Is Europe an optimum currency area? 393
Fiscal policy and common currency areas 396
Conclusion 400

22 The Financial Crisis and sovereign debt 405

Introduction 405
The sovereign debt crisis 412
Austerity policies – too far too quickly? 417

Glossary 424
Index 430
Credits 434
List of formulas 435
